JOSEPH HARRIS COMPANY, INC.

Moreton Farm

Coldwater, N. Y.

DELIVERY OF SEEDS

All vegetable and flower seeds **in this price list** except **Peas, Beans, Sweet Corn and Spinach** will be sent prepaid by parcel post, express or freight **at our option**.

Peas, Beans, Sweet Corn and Spinach will not be sent prepaid unless they are included in any one order **to the value of \$20.00 or more**.

The above offer to pay transportation does not apply to Field and Grass seed, Potatoes, Onion Sets, Fertilizers, etc. Articles other than seeds listed in this catalogue are sent at **purchaser's expense** except where they are quoted "**Transportation paid.**"

Seeds ordered sent *by express* will be so sent at the purchaser's expense.

About Ordering, Shipping, Etc.

Orders may be sent at any time and goods will be shipped at the time specified on the order.

Freight shipments are now handled by the railroads much more promptly than formerly and we advise having all heavy shipments (100 lbs. or more) sent in that way.

When ordering seeds shipped by freight or express please **be sure to give the name of your nearest freight railroad station or express office** if it is different from your postoffice address.

25% of the value of the order must accompany all orders for goods shipped C. O. D. Plants will not be sent C. O. D.

Terms and Discounts

Our regular terms are **cash with order**. When cash is sent with order we allow a discount of 5% on vegetable and flower seeds and plants, small fruits and accessories.

Field and Grass Seeds are strictly net cash with order at prices quoted.

To gardeners of established credit and those who furnish us with satisfactory references we allow the following **time payments** *except on field and grass seeds, which are strictly cash with order*.

Bills for seeds, plants, etc., shipped after January 1st are due and payable **net** August 1st.

Bills for goods shipped after August 1st are due **net** December 1st.

Conditions of Sale

No **seeds** are sold by us that we do not **know** are of good vitality and will grow under normal conditions. They are all tested and the per cent that germinates is marked on the package or label.

We assume responsibility of the seeds, plants and bulbs we sell reaching the purchaser in good condition. However, in common with all responsible seedsmen, all our seeds, plants and bulbs are sold on the distinct understanding and with the agreement by the purchaser that we will not be responsible for any loss or damage that may accrue by reason of the failure of the seeds, plants or bulbs to grow or to be of the variety or quality offered. We will not accept or fill orders under any other conditions.

Coldwater, N. Y., Dec. 1, 1937

JOSEPH HARRIS COMPANY, INC.

Our General Retail Catalogue

Our general retail catalogue is issued in January. It contains more complete descriptions of the varieties listed here. Also a full line of garden accessories, fertilizers, insecticides, etc.

Your copy will be mailed to you as soon as issued. If you do not receive it, let us know. We will gladly send copies to your friends on request.

JOSEPH HARRIS CO., Inc.

Remittance may be sent by Check, Draft, P. O. Order, Express Money Order or Registered Letter. Amounts under \$1.00 may be sent in Postage Stamps. It is not safe to send silver.

HARRIS SEEDS *for* 1938

WHOLESALE PRICE LIST

For MARKET GARDENERS and FLORISTS

Cutting Delicious Melons on our "North Farm." This early muskmelon is becoming more popular each year for local market and roadside sales. See page 27.

MODERN VARIETIES FOR UP TO DATE GROWERS

STYLES in vegetables change as they do in everything else. The grower who recognizes this fact and supplies his customers with the improved modern kinds is the one who will show a profit.

We keep on our toes, constantly testing and trying out these new kinds so that we may have the worth while ones to offer our customers. You will find in this list many new improved varieties as well as the best of the old stand-bys.

QUICK SERVICE

YOU can be assured when you send us an order that you will not have to wait for your seeds. During the shipping season orders are sent out promptly on arrival, and the fast mail, express and freight service we have now will get them to you quickly and in good order.

According to Our Tests
96 per cent
of this seed germinates

EVERY LOT OF SEED IS TESTED

A LABEL similar to this is put on every lot of Harris' Seeds that is sold. The figures of course vary.

THE PRICES quoted in this list apply only to orders from market gardeners, florists and institutions, who use seed in considerable quantities. *All prices here quoted are subject to change without notice and to our stocks being unsold.*

For prices of seed in quantities less than listed here, please refer to our general catalogue.

We will be pleased to quote special prices to anyone buying larger quantities of any one variety than we list here. Please write.

*Spargel (Ger.)***ASPARAGUS***Sparagio (It.)***Mary Washington—Large, early and “rust resistant”**

Originated by the United States Department of Agriculture at Washington and is the best of the “rust resistant” varieties. Our seed is the true strain and will produce the finest stalks. Oz. 15c; $\frac{1}{4}$ lb. 40c; 1 lb. \$1.25; 10 lbs. \$11.50.

*Artischoke (Ger.)***ARTICHOKE***Carciofo (It.)*

LARGE GREEN GLOBE. The Standard Variety. Produces the flower buds which are used for food the second year after sowing the seed. The plants are not hardy and require protection in winter north of Virginia. Oz. 50c; $\frac{1}{4}$ lb. \$1.50; 1 lb. \$5.00.

*Salat-Ruebe (Ger.)***BEETS***Barbabetole (It.)*

$\frac{1}{4}$ lb. of seed will sow about 250 ft. of row. Sow 10 lbs. of seed to the acre (for rows 18 in. apart.)

Harris' Special Crosby's Egyptian Beets
These smooth dark red beets bring top prices.

**Harris' Special
Crosby's Egyptian Beet
The Finest Beet For Early Bunching**

We are proud of our stock of this grand beet and can confidently say that it is the finest of the type grown. Our stock is backed by over thirty years of careful breeding here on our own farm and as we have said many times, “Every one a model for shape and color.” Market gardeners who grow our stock find that the attractive bunches of these smooth, even dark red beets with their fine tap roots always command better prices than ordinary stock. See price below.

**Harris' Special
Detroit Dark Red Beet**

Market Gardeners find this an extra fine beet for late summer and fall bunching, and canners of high quality products tell us there is no strain more satisfactory for color. We find it almost impossible to grow enough seed of this variety to meet our customers demands. Due to the short crop of seed for 1938, we again advise growers who wish to be sure of getting our stock to place their orders early. See prices below.

	$\frac{1}{4}$ lb.	1 lb.	10 lb.	100 lb.
CROSBY'S EGYPTIAN. Harris' Special Strain. See above...	\$.35	\$1.00	\$ 9.50	\$ 90.00
CROSBY'S EGYPTIAN. Bright Red Strain.30	.95	9.00	80.00
Color lighter red than Harris' Strain. Popular in some markets.				
DETROIT DARK RED. Harris' Special Strain. See above....	.35	1.00	9.50	90.00
Early Blood Turnip.25	.75	7.00	65.00
A good old variety. Large, somewhat flattened beets.				
EARLY WONDER. A Superior Strain for Bunching.35	1.00	9.50	90.00
Quite similar to our special strain of Crosby's Egyptian. Early and of good deep red color. Our strain of this variety is exceptionally fine.				
LONG SEASON. Called “Winter Keeper” and “New Century”.	.45	1.40	13.50	125.00
A very late variety of extra fine quality. Description in Retail Catalogue.				
LONG SMOOTH BLOOD RED25	.75	7.00	65.00
8 to 10 inches long and very dark red. Grows half out of the ground.				
Beets for Greens15	.45	4.00	35.00
Quick growing large tops, for greens. Will produce mostly green leaves.				

MANGELS AND SUGAR BEETS—For Stock

See our general catalogue for complete descriptions.

Six to eight pounds of seed will sow an acre.

MAMMOTH LONG RED. The Most Popular Variety15	.45	4.00

SWISS CHARD or Spinach Beets. See page 27.

Bohnen (Ger.)

BEANS

Fagioli (It.)

One pound of beans will plant 150 ft. of row. 60 to 75 lbs. per acre.

Beans in this price list are quoted f. o. b. Coldwater, N. Y. Purchaser pays transportation on beans, except as follows:

*If your order for vegetable seed including beans amounts to \$20.00 or more we prepay freight charges. (See also inside front cover.)

HARRIS' BEANS

Our first consideration is to supply our customers with the truest highest yielding strains of beans obtainable. Our beans are grown from clean, selected, high yielding stocks. We have made our prices as low as we possibly can for the quality of our bean seed.

BOUNTIFUL

The Best Flat Podded Green Bean

The pods are handsome, light green, straight, flat and entirely stringless.

Year after year in our own trials and the fields of our customers this stock has proved to be outstanding for vigor, high yield and trueness to type. See prices below.

TENDERGREEN

The Best Round Pod Green Bean

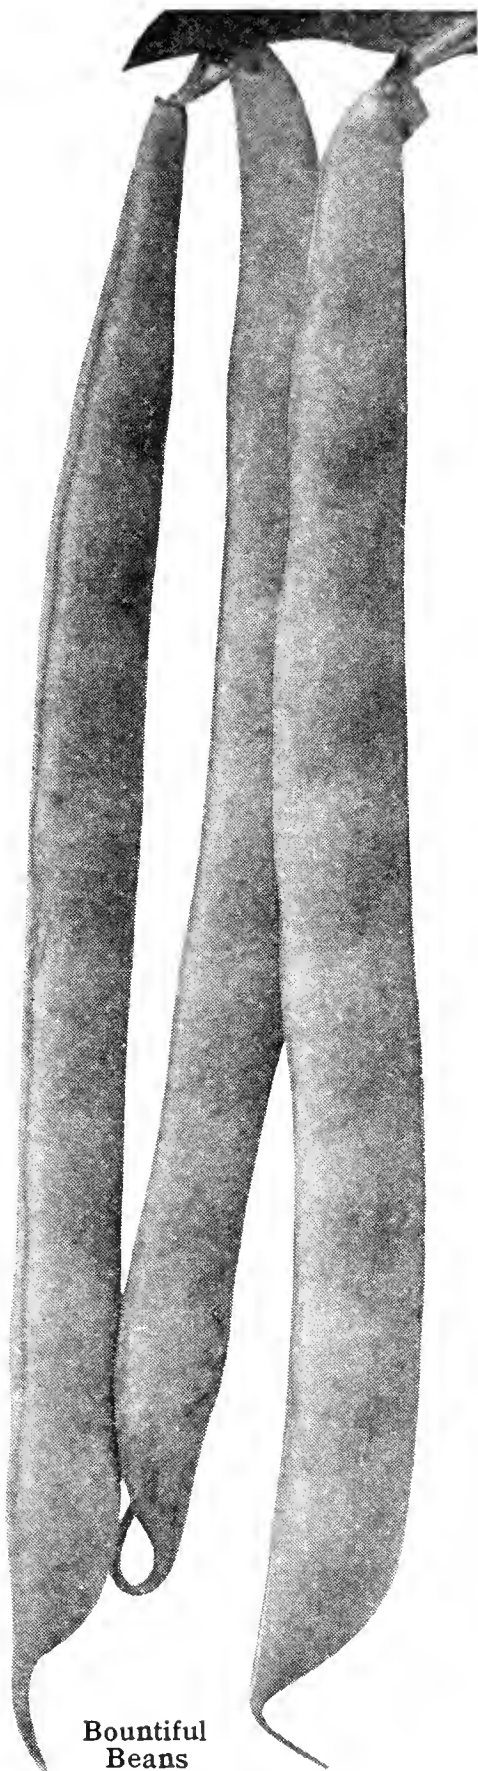

Market Gardeners who want an early round podded green bean will do well to grow Harris' Strain of Tendergreen.

Our stock of Tendergreen Beans has become so popular with our customers during the past few years, that now we sell nearly three times as much of it as we do of all other round podded green varieties combined.

The pods are handsome, straight, entirely stringless and produced in great abundance on sturdy upright vines. See prices below.

"Have purchased seeds from many different houses, but none have given me the satisfaction that yours have, so for the last 7 or 8 years you have received our full order for seeds." Robert G. Yorgey, Fleetwood, Pa. Jan. 11, 1937.

25 lbs. or more of one variety of beans will be supplied at 100 lb. price. A bushel of beans weighs 60 lbs.

Bountiful Beans

Dwarf Green-Podded Varieties

	NOT PREPAID* (See above)				
	1 lb.	7½ lb.	15 lb.	100 lb.	500 lb.
BLACK VALENTINE.....	\$.25	\$1.45	\$2.55	\$14.00	\$65.00
A profitable market bean, produces large crops of long, round, straight, light green pods.					
BOUNTIFUL. The Best Green Flat Pod. See above.....	.25	1.45	2.55	14.00	65.00
FRENCH HORTICULTURAL. Special Stock. See page 4	.30	1.95	3.60	21.00	100.00
Giant Stringless Green Pod.....	.25	1.35	2.40	13.00	60.00
Round pod, stringless, good yielder.					
Longfellow.....	.25	1.45	2.55	14.00	65.00
Long, straight, round, dark green pods. Not stringless.					
Lowe's Champion.....	.30	1.60	2.85	16.00
One of the Horticultural or Cranberry beans. Pods 5 in. long, flat, green, straight and stringless.					
Ruby Dwarf Horticultural. Also called "Roman" Beans...	.30	1.60	2.85	16.00	75.00
Used for shelling green. Pods light green splashed with deep red.					
STRINGLESS BLACK VALENTINE (Asgrow).....	.25	1.45	2.55	14.00	65.00
One of the most prolific and earliest green beans. Entirely stringless. Pods straight, nearly round when young. One of the best market beans and a very profitable variety to grow for market.					
TENDERGREEN. Early and Prolific. Round Pod. See above.....	.30	1.50	2.70	15.00	70.00

BEANS continued on next page.

French Horticultural Beans

Examining typical plants in one of our seed fields

French Horticultural Harris' Special Stock

In closely checking this stock, we find it fully equal to the finest private strains and superior to any commercial stock of French Horticultural grown. This is a pure line strain that has been increased by us from a single outstanding plant which we selected in 1928 and is remarkable for high yield, uniformly long pods and superb coloring. See prices on page 3.

Sure Crop Wax The Best Flat Wax Bean

If your trade demands a *flat* wax or yellow bean you will do well to grow our strain of Sure Crop. It is fully equal to any and much superior to most stocks offered. The vigorous healthy upright growth of the plants, combined with enormous yields of long straight pods have made this one of the most popular and profitable market kinds. See prices below.

"Your seeds are the best. For twenty-two years they have not failed me." Harry M. Townsend, Palmer, Mass. April 27, 1937.

Pencil Pod Black Wax The Best Round Podded Wax Bean

This is the bean to grow if your trade wants a round pod wax variety. Our strain is grown from carefully bred stock seed, which has been especially selected for vigor, high yield and true type. Growers have been highly pleased with this stock. See prices below.

Dwarf Wax Varieties

	NOT PREPAID*				
	1 lb.	7½ lb.	15 lb.	100 lb.	500 lb.
PENCIL POD BLACK WAX. Best Round Pod Wax. See above	\$.30	\$1.50	\$2.70	\$15.00	\$70.00
ROUND POD KIDNEY WAX or Brittle Wax30	1.75	3.15	18.00
Pods 5 to 6 in. long, round, clear yellow, stringless and medium early.					
STRINGLESS DAVIS WHITE WAX (New). White Seeded30	1.75	3.15	18.00	85.00
Long straight, entirely stringless, flat yellow pods borne in great abundance of sturdy upright plants. Ready at the same time as Sure Crop.					
SURE CROP WAX. The Best Flat Wax Bean. See above30	1.50	2.70	15.00	70.00
UNRIVALLED WAX. For Early Market30	1.50	2.70	15.00	70.00
A heavy yielder of attractive early flat, clear yellow pods. A few days earlier than Sure Crop.					
WEBBER WAX or "Wonder Wax." The Earliest Wax Bean30	1.50	2.70	15.00	70.00
The pods are long, straight, flat stringless and quite free from rust. A heavy bearer. Also called "Cracker Jack."					

FIELD BEANS

Sow about 60 lbs. of Field Beans per acre.

	NOT PREPAID*			
	1 lb.	7½ lb.	15 lb.	100 lb.
BOSTON MARROW or White Marrowfat. Perry Strain	\$.25	\$1.20	\$2.10	\$10.00
RED KIDNEY25	1.20	2.10	10.00
Robust Pea Beans. Mosaic Resistant25	1.10	1.60	7.00
White Kidney25	1.45	2.55	14.00

*We prepay freight charges if your order for vegetable seeds including beans amounts to \$20.00 or more.

BEANS continued on next page.

LIMA BEANS

A pound of Dwarf Lima seed will plant 150 ft. of row. About 60 lbs. per acre.
A pound of Pole Lima seed will plant 100 ft. of row or about 80 hills.

Fordhook Bush Lima

The Most Profitable Lima Bean to Grow

We are pleased to offer a very superior stock of this popular market variety. The vines are very prolific and the pods uniformly large with choice thick green beans. See price below.

	NOT PREPAID*				
	1 lb.	7½ lb.	15 lb.	100 lb.	500 lb.
Burpee's IMPROVED Bush Lima.....	\$.30	\$1.65	\$3.00	\$17.00	\$80.00
Larger pods and thicker beans than the old variety and deeper green in color.					
FORDHOOK BUSH LIMA. Best for Market. See above	.30	1.80	3.30	19.00	90.00
Henderson's Bush Lima25	1.45	2.55	14.00	65.00
Small flat pods and beans, early and very prolific.					
IDEAL or Mammoth Podded POLE LIMA.....	.30	1.75	3.15	18.00	85.00
Pods often 8 in. long, early and prolific. This is the best large podded Pole Lima.					

POLE BEANS

A pound of Pole Bean seed will plant 120 ft. of row or about 100 hills.

King Horticultural—Harris' Special Large Seeded Strain

There is really no comparison between this and ordinary strains of King Horticultural. All who saw our seed crops this year were greatly surprised with the enormous yield of uniform large heavily colored pods. The seed is exceptionally large.

This variety is superior to French Horticultural both for yield and disease resistance. The pods are only an inch shorter than French Horticultural, straight, very attractive, heavily splashed with bright scarlet at the shell stage and entirely stringless.

When grown on good, well drained soil, they can be grown just as well without supports. The pods grow just as long and straight and they can be picked as easily as the dwarf kinds. See price below.

	NOT PREPAID*			
	1 lb.	7½ lb.	15 lb.	100 lb.
Golden Cluster Wax.....	\$.30	\$1.90	\$3.45	\$20.00
Long, broad, deep yellow pods of finest quality; beans white.				
Kentucky Wonder. Also called "Old Homestead".....	.30	1.50	2.70	15.00
Long, slender, green pods of fine quality. Early and very prolific.				
KENTUCKY WONDER. (White Seed) Heavy Yielding.....	.30	1.90	3.45	20.00
This is the most uniform and prolific strain of Kentucky Wonder. Long slender pods. Has the added advantage of being white seeded.				
Kentucky Wonder Wax.....	.30	1.50	2.70	15.00
Long, flat, yellow pods of fine quality. One of the best wax pole beans.				
KING HORTICULTURAL. Special Large Seeded Strain. See above	.30	1.90	3.45	20.00
SCOTIA. Fine for Roadside Markets.....	.30	1.90	3.45	20.00
Extremely prolific, with long round slender green pods of the finest quality.				

*We prepay freight charges on beans if your order for vegetable seeds including beans amounts to \$20.00 or more.

BROCCOLI—Italian Green Sprouting (Calabrese)

You can depend on this stock to produce big compact center heads and an abundance of large side shoots. It is the true "Calabrese" strain and is the best of any stocks which we have seen.

Oz. 50c; ¼ lb. \$1.50; 1 lb. \$5.00.

Italian Green Sprouting Broccoli

BRUSSELS SPROUTS

Rosenkohl (Ger.) Cavolo di Brussels (It.)

1 oz. of seed will produce about 3000 plants.

Long Island Improved—Special Strain

Brussels Sprouts are a profitable crop to grow as there is always a market for good sprouts. The thing to do is to grow the right strain. We are pleased to offer this outstanding strain of Long Island Improved which has proved so satisfactory to our customers. The plants are not tall but the stems are completely covered with large and very firm sprouts.

Oz. 50c; ¼ lb. \$1.35; 1 lb. \$4.50.

*Kraut (Ger.)***CABBAGE***Cavolo capucci (It.)*

One ounce of seed will produce 1500 to 2000 plants in open ground or about 3000 in frames. It requires 4 to 6 oz. of seed to produce plants for an acre of ground.

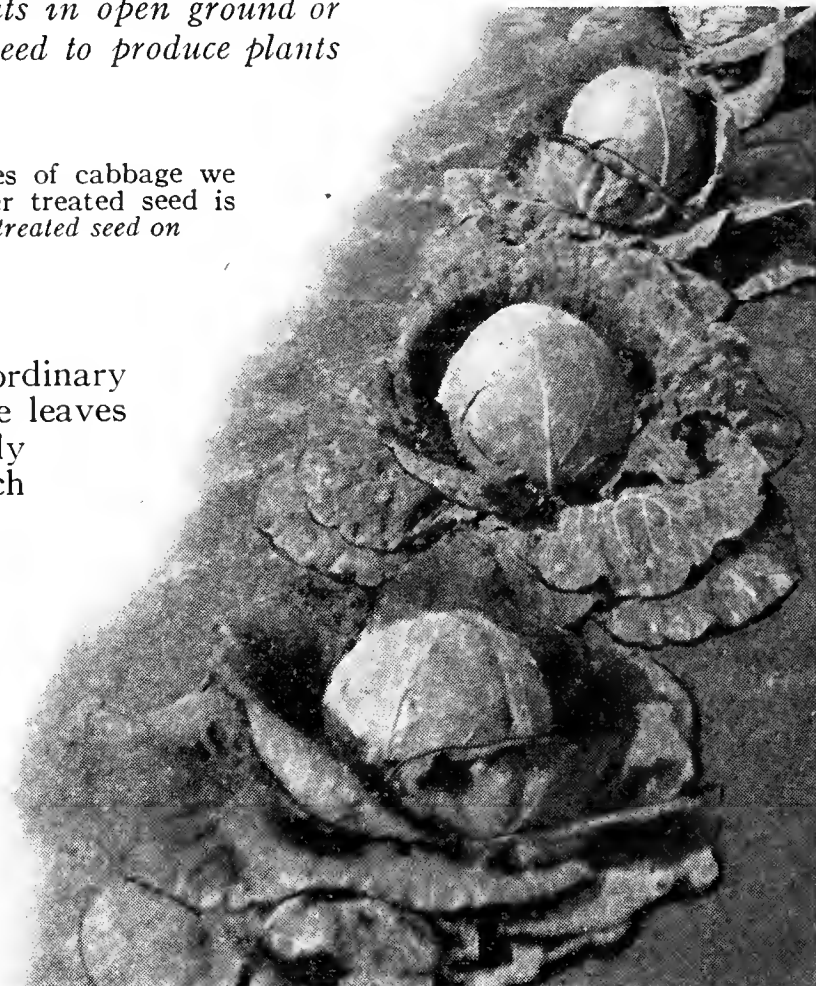

Hot Water Treated Seed

We can supply hot water treated seed of the varieties of cabbage we list in this catalogue at no advance in cost. Hot water treated seed is usually a little lower in germination. We will supply untreated seed on all orders unless treated seed is specifically requested.

Green Acre (New)

The most remarkable feature of this extraordinary new cabbage is the inherent green color of the leaves all through the heads which gives them a "freshly cut" appearance at all times, even after much shipping and handling.

The heads resemble Golden Acre, but are larger, greener and in our part of the country mature a few days later. This is the most uniform stock for size we have ever seen, every head being just alike. The plant is short stem and compact so that it can be planted close. This new cabbage will be a most profitable and satisfactory kind to grow. Try some this year. See prices below.

Part of a row of Green Acre Cabbage in our trial grounds

Golden Acre The Earliest Cabbage

Every market grower knows that this fine cabbage is one of the most profitable varieties to grow. Our strain of this popular variety is the true originator's stock which we have sold for years and is much superior to most stocks sold even at a much higher price. See price below.

Golden Acre Special—Best Strain of Golden Acre Obtainable

This finely bred strain of Golden Acre is we believe the most perfect strain of early cabbage in existence. We strongly recommend this stock to the grower who wants absolutely the best and is willing to pay the little extra cost for seed which actually amounts to only about 75c per acre. See price below.

Red Acre—Early Round Red (New)

This is the earliest red cabbage. The heads resemble a good stock of Copenhagen Market in all respects except color. They mature at about the same time.

The heads are uniformly very round, solid and of deep red color with an attractive "bloom." *Almost every head is exactly alike.* The plants are compact, so they can be planted close and even under adverse conditions practically every plant makes a good head. See price below.

Early Varieties

	Oz.	¼ lb.	lb.
COPENHAGEN MARKET. True Large Headed Stock.	\$.30	\$.90	\$3.00
Our strain is larger and more uniform than usual strains of this variety. Heads round, hard and have few outside leaves. Larger and about 10 days later than Golden Acre.			
COPENHAGEN MARKET. ("Yellows" Resistant.) See next page.....	.50	1.50	5.00
Early Jersey Wakefield. Early Pointed Heads.30	.90	3.00
Our strain is particularly fine, the heads being very uniform and early.			
ENKHUIZEN GLORY. True Originator's Strain.25	.70	2.25
A very large, medium early cabbage. Heads as large as the late kinds and mature much earlier. Has proved to be a most profitable variety for market and kraut.			
GOLDEN ACRE. The Earliest Cabbage. See above.....	.35	1.10	3.50
GOLDEN ACRE. Special Strain. See above.....	.60	1.90	6.50
GOLDEN ACRE. "Yellows" Resistant.50	1.50	5.00
True to type and earliness and in addition will produce good crops on diseased soil where regular Golden Acre cannot do well. We have but a limited amount of seed.			
LARGE LATE COPENHAGEN. Best for Kraut.30	.90	3.00
Enormous yielder. Two weeks later than Copenhagen Market. Can be cut for market or kraut. Remains hard without splitting a long time, growing 10-12 in. in diameter.			
MARION MARKET. "Yellows" Resistant. Copenhagen Type.45	1.20	4.00
We have a true stock of this variety which should be grown for market and kraut by farmers whose soil is infected with cabbage "yellows."			
GREEN ACRE. See above.....	.65	2.00	7.00
RED ACRE. Early Round Red. (New). See above.....	.50	1.50	5.00

Copenhagen Market “Yellows” Resistant

This stock of “Yellows” Resistant Copenhagen Market is so much better than those which have heretofore been offered that there is no comparison. In addition to being resistant to yellows the heads are very uniform for shape and size and it is altogether one of the best bred market varieties we have seen in a long time. The heads are about the size of our strain of regular Copenhagen Market but mature a little earlier.

See price on page 6.

Harris Ballhead The Most Uniform, Heaviest Yielding Danish

If you grow Danish Cabbage, try this stock, we are proud of it and can fully recommend it to our customers. It is the result of a number of years of pure line breeding and careful selection on our own farm and in our opinion and that of many of our customers will produce more tons of fine solid Danish cabbage than any other strains we know. The heads are deeper than most stocks, remarkably heavy for their size, and greener in color. They are outstanding keepers in storage.

It will pay you to grow this stock. The slight extra cost over ordinary seed amounts to but a few cents per acre and is returned manyfold by the extra tonnage you can get. See price below.

Harris' Ballhead. A typical head

Late or Main Crop Varieties

	Oz.	$\frac{1}{4}$ lb.	lb.
ALL SEASONS. The Best “Domestic” cabbage	\$.25	\$.70	\$2.25
We recommend this strain for growers who want the best in yield and type of the large flat “domestic” cabbages.			
DANISH BALLHEAD. Intermediate. “Fine Keeper.”30	.90	3.00
Heads are deeper and not as flattened as the short stemmed. The color is deeper green and they keep very well in storage. A profitable type to raise.			
DANISH BALLHEAD Short Stem. Heavy yielding strain30	.85	2.75
This is a very fine strain producing large yields of uniform heads which are medium large, solid and of good color. An excellent variety for storage.			
HARRIS BALLHEAD. See above45	1.20	4.00
MIDSEASON MARKET30	.90	3.00
One of the most uniform and heaviest yielding of the early midseason varieties. Heads are large almost perfectly round and solid. Excellent for market kraut or shipping.			
PENN STATE Ballhead. True Stock30	.90	3.00
Short stemmed with very solid heads, which are somewhat flatter than most Danish types. This cabbage is noted for the large yield.			
Premium Flat Dutch25	.70	2.25
SAVOY. Perfection Drumhead. Market Gardener's Strain30	.90	3.00
Heads are large, of fine quality and quite firm. The leaves are deep green, and very much curled. Matures late and keeps all winter. This is an extra fine strain for market and roadside stand.			
WISCONSIN HOLLANDER. “Yellows” Resistant35	1.10	3.50
We have a true stock of this cabbage which will produce good crops on ground so diseased with “yellows” that ordinary cabbage will not survive. Danish type.			
MAMMOTH ROCK RED. Sure Heading Strain30	.90	3.00
The largest red cabbage. The heads are hard, round and deep red. This is the best late red kind for market or shipping.			

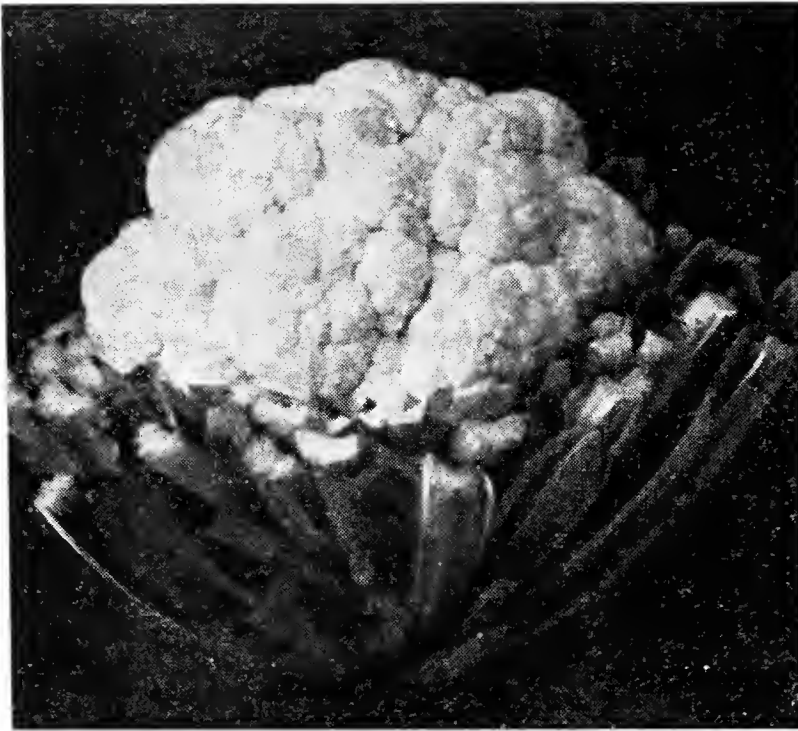

CHINESE CABBAGE

Chinese cabbage has proved to be a very profitable crop for muck as well as up-land. The seed is sown in July or August. The crop matures in 8 to 10 weeks.

	Oz.	$\frac{1}{4}$ lb.	Lb.
CHIH LI. Much the Best Variety	\$.25	\$.75	\$2.50
This variety has proved to be the most popular and best for market and roadside stands and has almost entirely replaced all other kinds. The heads are very attractive, often 18 in. long, uniform in shape and size. This variety is by far the best to grow.			
Pe-Tsai25	.70	2.25
Large upright heads. 18 to 20 in. high.			
Wong Bok25	.70	2.25
Short compact heads of fine quality.			

Chihli

*Blumenkohl (Ger.)***CAULIFLOWER***Cavolflore (It.)**One oz. of seed will produce 1500 to 2000 plants in open ground or about 3000 in frames.*

Snowball Perfected Strain
(Typical of the deep heads)

Harris' Cauliflower Seed

For many years we have made it a point to supply our customers with the best possible cauliflower seed and at a reasonable price. We have made our prices as low as is consistent with good quality. You need pay no more to get the best.

Snowball Cauliflower**Perfected Strain**

*"No better seed can be bought
at any price"*

From the reports of our customers and our own trials we are firmly convinced that this is literally true—and that there is no use paying more than we charge for Snowball Cauliflower. The heads are unusually deep and heavy, of uniformly good size, beautifully white with a tight attractive curd. See price below.

Super Snowball Cauliflower—True Originator's Strain **Early—Large Heads**

Cauliflower growers recognize the value of this fine variety and our customers have found that altho there are many strains now offered under a large number of names this stock of this true originators strain of Super Snowball cannot be surpassed. We have sold this same strain continuously since it's introduction in 1929.

We strongly advise our customers not to take chances with their Super Snowball but to use this proven original strain which has been so extremely satisfactory. See price below.

New Early American Snowball—The Earliest Cauliflower

This new variety is the earliest cauliflower we have ever seen. Since its introduction two years ago, it has made many friends both because of its earliness and ability to produce *large fine tight* heads. Even under adverse conditions practically every plant will make a good head and it matures so evenly that the entire crop can be harvested in a short period of time. Its well worth trying. See price below.

New Early Purple Head

This is the finest strain of Italian Purple Cauliflower. The plants are compact and produce tight uniform good size heads, fully two weeks earlier than the usual purple stocks. In our trials this stock produced *100% true purple heads*. See price below.

	$\frac{1}{4}$ oz.	Oz.	$\frac{1}{4}$ lb.	lb.
Danish Giant Snowball or "Dry Weather"	\$.50	\$1.60	\$5.75	\$20.00
Ten days or two weeks later than Snowball and more vigorous. Stands drought.				
DANISH GLORY (NEW)75	2.25	8.00	30.00
A deeper heading selection of Super Snowball maturing between that variety and Perfected Strain. The large firm heads are well covered. Has proved a good cropper under a wide variety of conditions.				
DANISH PERFECTION. For late market.50	1.60	5.75	20.00
Heads very solid and without protruding leaves. A week later than Snowball.				
EARLY AMERICAN SNOWBALL (NEW). See above75	2.25	8.00	30.00
ERFURT EARLY DWARF. Also called CATSKILL SNOWBALL.45	1.50	5.15	18.00
Much like Snowball, but has somewhat shorter stems. Ours is a true even stock.				
ITALIAN PURPLE. Large purple heads (Late)35	1.00	3.40	12.00
This is a true cauliflower, but the heads have a purple tinge and do not require tying. The demand for these cauliflower far exceeds the supply.				
NEW EARLY PURPLE HEAD. See above50	1.60	5.75	20.00
SNOWBALL. Perfected Strain. See above50	1.60	5.75	20.00
SUPER SNOWBALL. Originator's Strain. See above75	2.25	8.00	30.00

Carroten (Ger.)

CARROTS

Carota (It.)

An ounce will sow about 300 feet of row. It requires 2 to 4 lbs. of seed for an acre, depending on how far the rows are apart.

Supreme Half-Long
An Excellent New Sort for Market

This new carrot is really a slender, refined, coreless stock of Danvers type. The roots are very attractive; they are of deep orange color and quite smooth. The interior is solid deep orange, having a small "red" core. The tops are not too large making this a fine carrot both for bunching and busheling. See prices below.

Imperator—Outstanding for Bunching

This is the fine bunch carrot which is shipped to Eastern markets from California. It does just as well here and is rapidly becoming very popular for high class bunching trade. The carrots are often eight inches long, smooth, somewhat tapering and deep orange in color. The tops are just right for bunching. We offer the true stock. See prices below.

Morse's Bunching

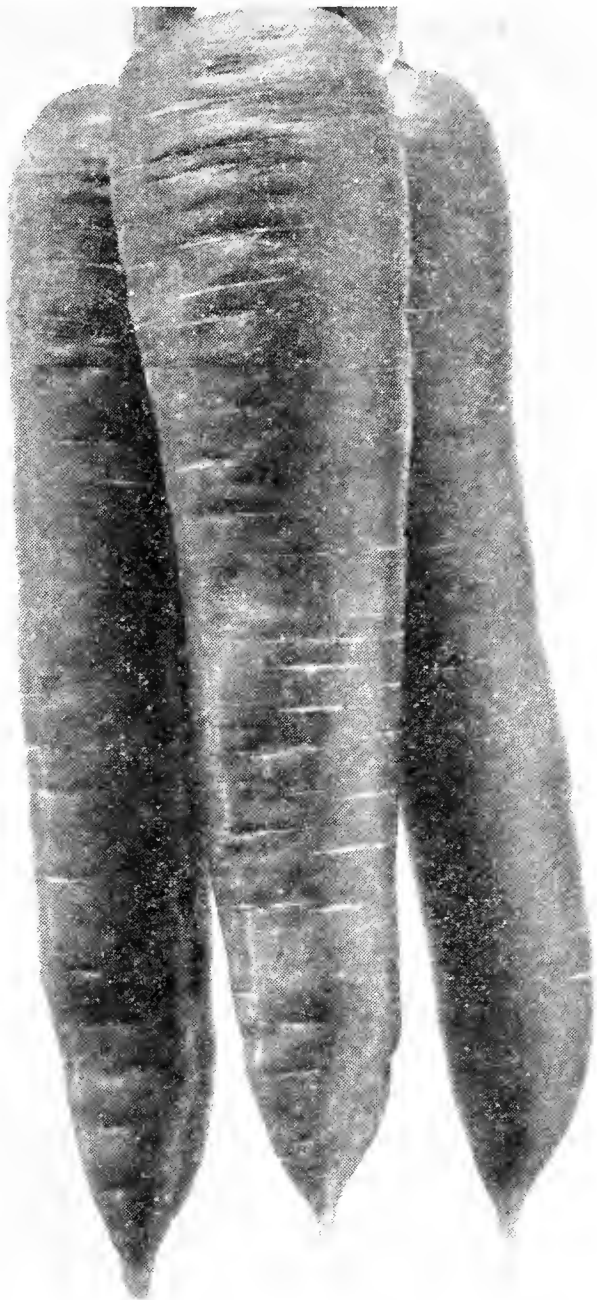

This new carrot has become very popular in many sections for bunching, because of its very fine color, smoothness and uniform appearance. The carrots are eight inches long, smooth, slightly tapering with a stump root when fully mature and with good tops for tying. They are deep orange, clear to the tip, entirely coreless and of fine quality. See prices below.

Nantes—Coreless

This is the *coreless* variety that is used so much for bunching on markets. The carrots are very attractive six to seven inches long, smooth, cylindrical and stump rooted. They are *entirely coreless* and of finest quality. See prices below.

Note: 25 lbs. or more of any one variety will be supplied at the 100 pound rate.

CHANTENAY. Special Strain	Grows about an inch longer than most Red Cored and most strains of Chantenay. It has proved the best stock of this variety we know.
CHANTENAY. Red Cored	Our customers have been well pleased with this stock. The fine quality of this carrot has made it rapidly replace the old style Chantenay both for market and canning. Our strain has been constantly improved and will be found to be practically 100% red cored.
DANVERS HALF LONG. A Heavy Cropper	We have a pure heavy yielding stock of this popular variety.
HUTCHINSON. True Market Garden Strain	The roots are 8 to 9 in. long, nearly the same size the whole length and stump-rooted. Color light orange. This carrot yields large crops and is used extensively for busheling.
IMPERATOR. Fine for Bunching. See above	
Long Orange	Roots a foot long, yields large crops.
Mastodon or White Vosges	Large, white carrot for stock feeding. Immense yielder. 8 to 10 in. long.
MORSE'S BUNCHING. (New) See above	
NANTES. Coreless. See above	
Oxheart or Guerande	Short, thick carrots, used for bunching and table use.
PERFECTION. A Larger "Coreless"	This carrot is similar to Amsterdam Forcing, but is larger, being 6 to 8 inches long. They are practically the same size the whole length and <i>coreless</i> . Fine for fall market.
SUPREME HALF LONG. (New) See above	
TENDERSWEET. The Sweetest Carrot	This carrot is being grown more and more for market. The striking deep reddish orange color, good bunching character and superb quality have made it popular.

Bleich-Sellerie (Ger.)

CELERY

Sedano (It.)

An ounce of seed will produce about 8000 plants. It requires 20,000 plants to the acre.

Supreme Golden

Note the long, thick hearts.

Supreme Golden (NEW)

An Improved Golden Self Blanching

This new strain is definitely taller than our regular Golden Self Blanching and matures a few days earlier. It is however later than Golden Plume.

The plants grow very erect and are unusually compact and uniform. The stems are long to the first joint, broad and rather thick. One of the best features of this new variety is that the inner stems are long and the hearts exceptionally good. The whole plant is very compact, making a very solid crate when packed. The stems blanch to a clear cream white. This variety has greatly impressed growers in many sections, perhaps it will fit well into your program. See prices below.

Golden Plume or Wonderful

This is the original type of Golden Plume which has proved so satisfactory. The stalks are *very large* with remarkably *heavy hearts* and with *thick solid stems*. Constant improvement has made our stock even better than when it was first introduced. There is not one green stalk in a thousand and no soft ones.

Many of the best celery growers in the country get their seed of Golden Plume from us. They have found that by using our stock it is not necessary to pay a fancy price in order to get the best results. See prices below.

Golden Plume—New Tall Strain

This new strain has stems which are longer the first joint than the old and it is definitely a taller plant. Many growers this year were well pleased with this new strain. It is better suited for growing on upland than on muck. See prices below.

Yellow or “Self-Blanching” Varieties

	Oz.	¼ lb.	lb.
GOLDEN PASCAL (New). Of superb quality ¼ oz. 40c	\$1.25	\$4.25	\$15.00
A new tall growing celery of extremely fine quality. The stalks are thick, rounded and long, creamy yellow in color and very brittle and tender.			
GOLDEN PLUME or WONDERFUL. See above75	2.35	8.00
GOLDEN PLUME. New Tall Strain. See above75	2.35	8.00
GOLDEN SELF-BLANCHING. “New” Strain. Tall75	2.35	8.00
Grows very rapidly and is strong and healthy, resisting blight well. Some growers think it is too tall for late crop and storage, but prefer it for the early crop.			
GOLDEN SELF-BLANCHING. “Old” Strain75	2.35	8.00
This old standard variety continues to be a very profitable strain to grow especially for late crops. The stalks are large, just tall enough to nicely fill a standard celery crate, and have large heavy hearts.			
SUPREME GOLDEN (NEW). See above ¼ oz. 50c	1.60	5.75	20.00

Salt Lake or Utah—The Best Green Celery

Salt Lake is the best celery to use where a superior green kind is wanted for storage. Growers who have used our strain for the past eight years have been very enthusiastic in its praise.

The plant grows to a good height with a well developed and heavy heart. The individual stalks are *very thick*, crisp, of high quality and they blanch more quickly than other green varieties and we have seen fields with thousands of plants and not a single soft stalk.

The Harris’ Strain produces uniformly large compact plants. See prices below.

Green Varieties

	Oz.	¼ lb.	lb.
EASY BLANCHING “Newark Market” or Sanford Superb	\$.60	\$1.75	\$ 6.00
It has the same dwarf, compact habit of growth as Golden Self-Blanching, blanches quickly, and is of fine quality. Leaves are green and the stalks white when blanched.			
GIANT PASCAL. Special Strain50	1.50	5.00
This strain of Giant Pascal is largely used in New England and is considered one of the very best for late winter market. The stalks are large, solid and blanch pure white.			
SALT LAKE or UTAH. The Best Green Celery. See above75	2.35	8.00

CELERIAC—Turnip-Rooted or “Knob” Celery

	Oz.	¼ lb.	lb.
LARGE SMOOTH PRAGUE. Best for Market.	\$.25	\$.75	\$ 2.50
This is the standard market garden variety.			
DELICACY. Grow for fine quality30	.90	3.00
This variety produces medium size bulbs of superior quality.			

Gurken (Ger.)

CUCUMBERS

Cetriolo (It.)

¼ lb. of seed will plant about 300 hills or 200 ft. of row. It requires about 2 lbs. of seed per acre in hills or 3 to 4 lbs. drilled.

Harris' Perfection Cucumber. Ideal in shape and size for market.

Harris' Perfection—The Grandest Long Green White Spine

We first introduced this grand cucumber in 1916 and it has always stood out in the front among fine long green market varieties. Since its introduction this stock has been under our entire control and we have worked constantly to improve the type, yield and uniformity so that now even though there have been several very fine varieties of this type introduced in the past few years, many of our customers tell us that because of its evenness in size and handsome deep green color, Harris' Perfection commands a premium over other kinds.

The fruit is white spined, long, straight smooth and handsome, deep green with small white rays on the blossom end. It retains this deep green color for a long time after picking. The cucumbers will average over eight inches long when ready for market and are just the right thickness.

This variety is adapted for dill pickles as well as for general market. See prices below.

Straight Eight—A Very Prolific Long White Spine

This new variety has become very popular among growers because of the large yield of fine straight cucumbers. When ready for market the cucumbers are 8 to 9 inches long, straight and smooth. The color is medium dark green with green rays at the blossom end. We can recommend Straight Eight for a money making crop. See price on next page.

A & C—A Fine New Long White Spine Variety

This new cucumber has rapidly come to the fore among the long green white spined varieties and we are pleased to be able to offer to our customers a fine true stock of this popular kind.

The cucumbers are long, not too thick, smooth and dark green in color, making a very fancy pack. They are produced in great abundance on strong healthy vines. See prices below.

	Oz.	¼ lb.	lb.	10 lb.	100 lb.
CHICAGO PICKLING.	\$.12	\$.30	\$ 1.00	\$ 9.00	\$ 80.00
Very prolific and profitable for pickles. The young fruit is straight, square ended, medium deep green. Black Spine.					
A. & C. A Superior Long White Spine. See above.20	.60	2.00	19.00	180.00
CHINA. Finest Quality.45	1.20	4.00
Grows 15 to 20 in. long and very slender. This is an excellent kind for roadside stands. Their length and smoothness give them the appearance of hothouse-grown ones. For full description see our retail catalogue.					
DAVIS' PERFECT.15	.40	1.10	10.00	90.00
Long straight fruit, tapering at both ends, very dark green, holds its color.					
EARLY FORTUNE. Selected Stock.15	.40	1.10	10.00	90.00
A very fine strain of White Spine. It is medium early and productive, excellent for market and pickles. The fruit is about 7 inches long, slightly tapering and of deep green color. It holds its color well when shipped.					
EARLY WHITE SPINE. For Pickles.12	.30	1.00	9.00	80.00
Early and very productive. Excellent for pickles and slicing.					
Green Prolific or Boston Pickling.12	.30	1.00	9.00	80.00
Very prolific; short, bright green variety for pickles. B. S.

Grows 8 to 10 in. long and stays green a long time. We have a very fine strain.					

Harris' Double Yield Pickle

Enormous Yields of the Finest Pickles

Since we introduced this variety a number of years ago it has become increasingly popular among growers because of the enormous yield of fine straight pickles which the vines produce. The young cucumbers are often produced in clusters of three or four like the fingers of your hand.

The cucumbers are very straight with blunt ends, medium deep green in color and of the very best shape for small pickles. This is also the earliest variety we know, enabling growers to plant late and still get a large yield of fruit.

Growers will be pleased to know that this year we have harvested one of the finest seed crops in a number of years so that we will have a good supply of seed to offer. See prices on page 11.

Harvesting our crop of Double Yield
Note the uniform shape of these cucumbers.

Irondequoit Hothouse—Greenhouse Bred Strain

This is the famous variety which has been developed by the greenhouse growers around Rochester. The seed has been saved entirely from perfect fruit grown under glass in the well known Irondequoit gardening section and will produce remarkably fine uniform cucumbers. The fruit is long, slender, and deep green. It is nearly perfectly solid with very few seeds. The vines are vigorous and very prolific. 100 seeds \$1.00; 500 seeds \$4.00; 1000 seeds \$7.00.

CHICORY

WITLOOF or FRENCH ENDIVE. We offer a fine true strain of this popular salad plant. For description and price of seed see under Endive on page 16.

COLLARDS

GEORGIA. Has large cabbage-like leaves, which grow loosely on stems 2½-3 ft. tall. Does not form heads. May be sown in spring like cabbage or in June or July. Popular in the South for table use and stock feeding. Oz. 10c; $\frac{1}{4}$ lb. 25c; lb. 75c.

Feld Salat (Ger.)

CORN SALAD or Fetticus

Valeriannt (It.)

	Oz.	$\frac{1}{4}$ lb.	lb.
LARGE ROUND-LEAVED. Market Gardener's Dark Green Strain	\$.15	\$.40	\$ 1.25
The leaves are uniformly large, and dark green. Yields large crop.			

Garten-Kresse (Ger.)

CRESS

Agretto (It.)

	Oz.	$\frac{1}{4}$ lb.	lb.
EXTRA FINE CURLED—Also called Pepper Grass	\$.10	\$.25	\$.75
We offer the true stock of this variety.			
WATER CRESS. Improved Broad-leaved45	1.25	4.00
This is a much better strain than the common Water Cress. Excellent also for forcing in greenhouses and frames.			

*Welschkorn (Ger.)***SWEET CORN***Mais (It.)*

One pound of seed will plant 350 to 400 hills; 10 to 12 lbs. will plant an acre. A bushel weighs 48 lbs.

At the prices here quoted, sweet corn is not prepaid. Purchaser pays transportation on sweet corn except as follows: If your order for vegetable seeds, including corn, amounts to \$20.00 or more we will prepay the FREIGHT charges. Write for special prices on larger lots than quoted here.

Harris' Northern Grown Sweet Corn

For many years we have made a specialty of growing sweet corn seed of the highest quality here in the North and due to our efforts in careful scientific selection and breeding to improve the earliness, yield and quality, the demand for Harris' Sweet Corn has grown so that we are now large producers of the best market varieties.

Hybrid Sweet Corn

Hybrid sweet corn has become very popular among growers, especially those whose market is large enough to dispose of large pickings at one time. The large number of hybrids (many of which are of doubtful value) now offered make it difficult for the grower to choose the best. Good hybrids can be produced only from carefully selected pure line parent stocks. In the production of hybrid seed corn constant detasseling of the seed parent is absolutely necessary. Many seed fields of hybrid corn are detasseled only three or four times but we find that it is necessary to go carefully through each of our fields *twelve to fifteen* times in order to do a complete job. This is expensive work but is the only way that first class hybrid stocks can be grown.

Hybrid sweet corn cannot be saved for seed the next year as it will break down.

Northern Cross**A New Tremendous Yielding Hybrid**

See photograph on front cover

This new corn is without doubt the best hybrid of the Whipple's Yellow type. Growers who had this corn last year were first struck by the fine stand and vigor of the young plants, and as their crops matured were greatly impressed by the earliness and large yield of fine big ears, more often than not getting two good big ears to a plant and sometimes three. It is truly a tremendous yielder of fine large ears and fills the gap between the extra early kinds and Whipple's Yellow.

These large ears are very uniform in size, fully eight inches long with 12-14 rows of bright yellow kernels and are very attractive in appearance. The quality is exceptionally high.

This corn matures a few days before Whipple's Yellow and from 10 to 12 days earlier than Golden Cross Bantam.

Northern Cross is a product of our own breeding here in the North, being a cross between two of our own pure line inbreds and can be produced only by us. We are confident that this fine corn will continue to be the outstanding market variety and urge our customers to make a planting this year. See prices on page 15.

"We find that Northern Cross Corn is the best corn to follow Golden Early Market. It ripens about one week later but is a much better yielder. It yields two and three full size ears on a stalk. We averaged about 1200 doz. per acre."
Nov. 15, 1937 Hafner Bros., North Syracuse, N. Y.

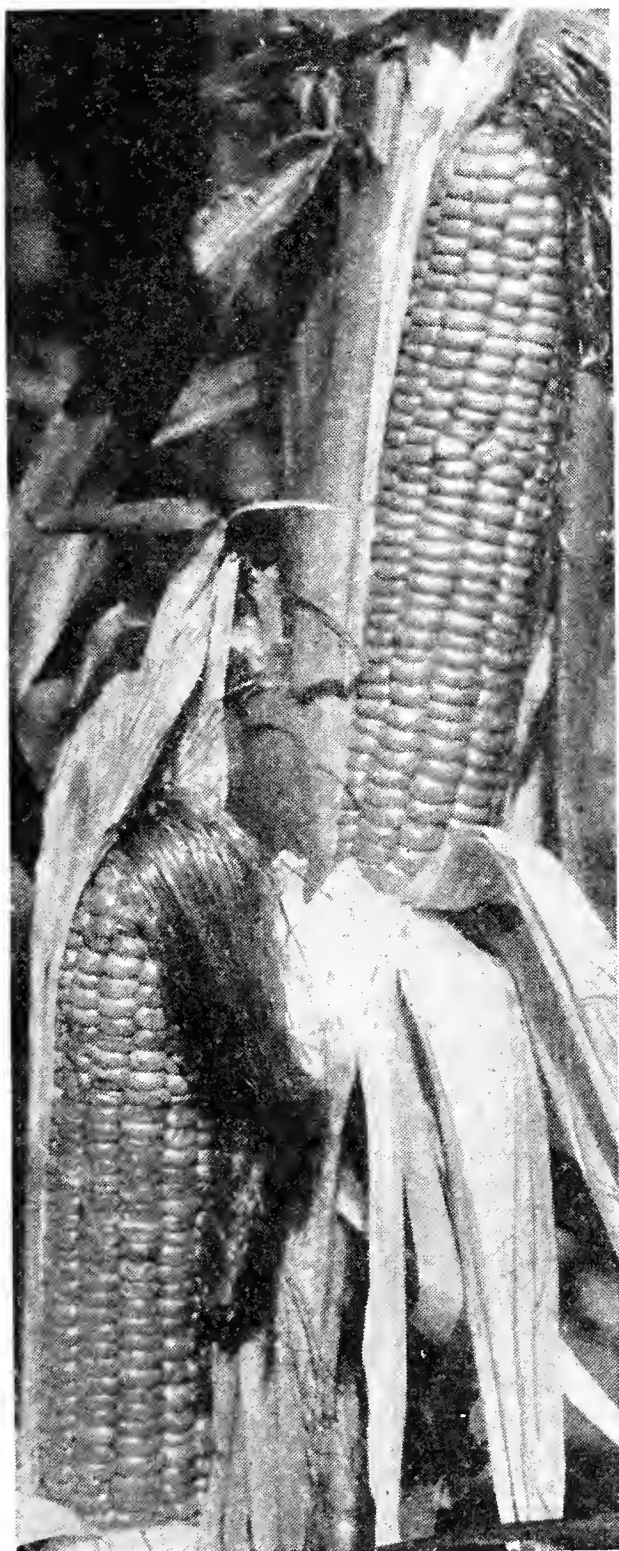

Early Bancross 39**A New Early Crossed Corn**

This new crossed corn has proved a winner to growers who want a large uniform ear maturing before Golden Cross Bantam.

The ears are similar to this variety but mature 10 days earlier. The plant is rugged and prolific, with the majority of the plants producing two good ears.

Our seed of this new hybrid has been produced under our careful supervision by a top cross of Purdue 39 on our own selected stock seed of Harris' Extra Early Bantam. This corn should be sown at the same rate as the open pollinated varieties.

See prices on page 15.

Early Bancross 39

Canada Gold (NEW)

Large Ears, Heavy Yield and EARLY

As we see more of this new variety we are more firmly convinced of its merit, as an early corn. Growers in increasing numbers are using it and since we introduced it three years ago our sales have increased rapidly. It is only a few days later than Golden Early Market and will produce longer ears.

The ears are often *nine inches long*, with 8 to 12 rows of deep butter yellow kernels of excellent quality. The plant is strong, tall and sturdy, often producing two good ears on a stalk. This is a real achievement in sweet corn breeding and we urge any who have not yet grown this kind to try some this year. See prices on page 15.

Golden Early Market (Gill's)

Grow for Extra Early Large Ears

This corn is rapidly becoming the most popular early variety among growers because it produces large attractive ears very early and thus commands the highest prices. *It is important to get true seed.* We obtained our stock from the originators and have grown and improved it here in the North for the past five years. You can depend on the Harris' stock of Golden Early Market to produce early crops of uniformly large fine ears. See prices on page 15.

Harris' Extra Early Bantam

Since we introduced this corn in 1927 it has proved one of the most profitable varieties for the grower ever offered. It is not only an extremely heavy yielder but is one of the earliest varieties, maturing ears which can be picked and sold at high prices before the market becomes flooded with corn.

The ears resemble true Golden Bantam both in size and shape and high quality but mature ten days earlier. They are up to 7" long with 8-10 rows of golden yellow kernels, and very uniform in size and appearance. See prices on page 15.

Golden Cross Bantam

Wilt Resistant—High Yielding—Uniformly Large Ears

Golden Cross Bantam has established itself as the most important hybrid corn for market and canning, especially in places where wilt (Stewart's Disease) is troublesome. The demand has been so great that many inferior stocks are being offered and growers should be particularly careful to get their seed from reliable sources. We are very proud of our stock. Every pound was grown here in Western New York from tested pure line parents and was thoroughly detasseled.

This corn produces *large crops* of beautiful ears, having 10 to 14 rows of light golden yellow kernels which are remarkably uniform in length (about 8 in.) and of excellent quality. They mature about a week later than Golden Bantam, the whole crop ripening at nearly the same time.

Sow not more than six pounds per acre. See prices on page 15.

Whipple's Yellow

Harris' Original Northern Grown Stock

We are the *original* introducers of Whipple's Yellow Corn and since its introduction in 1920 we have constantly bred and selected it for earliness, uniformity of size and high yield.

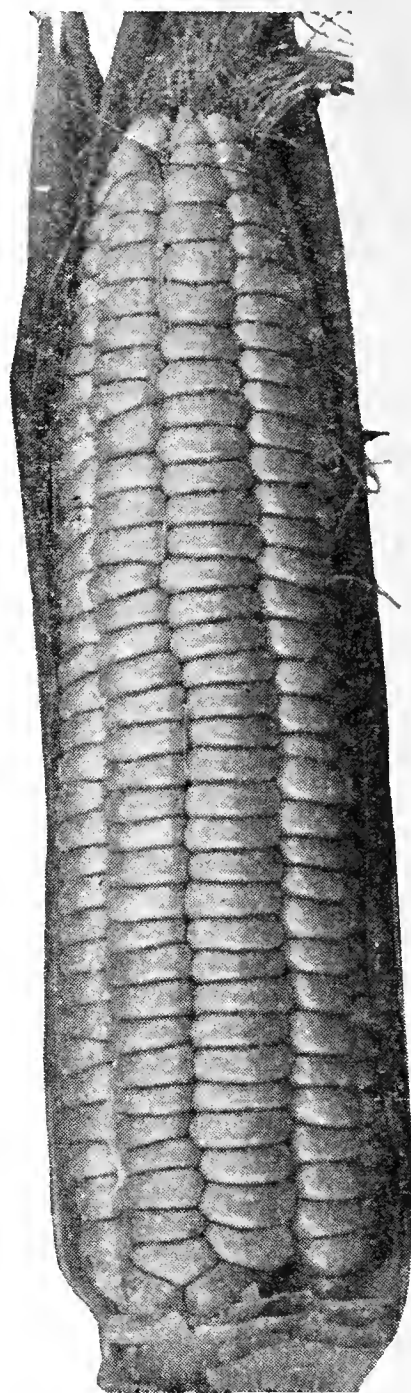

We have seen many other stocks of Whipple's Yellow grown in comparison with our own and have been greatly impressed by the fact that ours stands head and shoulders above all the rest. *You cannot afford to grow just an ordinary strain of this fine corn.*

Every pound of this variety which we sell is grown here in the North, on or near our own farm, from our own carefully bred stock seed. The only safe way to do is to buy your seed direct from headquarters and you will be sure that you are getting the true original Whipple's Yellow.

Note—When ordering please write "Whipple's Yellow" not just "Whipple's" as that will confuse it with Whipple's Early which is a white corn. See prices on page 15.

Whipple's Early (White) — The Largest Early White Corn

This variety has proved so popular since we introduced it in 1919 that many inferior strains are now being sold. The seed we offer is all *Northern grown here in Monroe County* from our own carefully selected stock seed and will produce large crops of uniformly large attractive ears. See prices on page 15.

Harris' Extra Early Bantam
A Typical Ear

SWEET CORN—Yellow Varieties

25 lbs. or more of any one variety will be supplied at the 100 pound rate.

	NOT PREPAID*			
	1 lb.	6 lb.	12 lb.	100 lb.
BANTAM EVERGREEN.....	\$.25	\$1.15	\$2.05	\$14.00
One of the best late yellow corns. Ears large, better than most stocks grown straight rowed and fine quality.				
BUTTERCUP. Noted for Quality.....	.25	1.15	2.05	14.00
A larger, improved Golden Bantam. The long slender ears always command a premium on markets. A very superior stock of our own breeding.				
CANADA GOLD (NEW). Early large ears. See page 14.....	.25	1.25	2.30	16.00
An outstanding new early corn.				
EARLY BANCROSS 39. New Early Hybrid. See page 13.....	.40	2.40	4.55	35.00
GOLDEN BANTAM. True Strain.....	.25	1.15	2.05	14.00
Small, medium early, kernels yellow and of fine quality. Our stock is carefully bred to the true original type and is far superior to most Golden Bantam.				
GOLDEN Country Gentleman. Grow for quality. (Late).....	.30	1.40	2.50	18.00
The large attractive ears and superb quality make this a fine corn for late market and roadside sales. The kernels are irregular like the old white variety but deep golden in color. One of the sweetest varieties grown.				
GOLDEN CROSS BANTAM. Wilt resistant. See page 14.....	.40	2.35	4.45	34.00
GOLDEN EARLY MARKET (Gill's) same as Golden Hummer and Extra Early Yellow. See page 14.....	.25	1.20	2.15	15.00
GOLDEN GEM. The Earliest Variety.....	.25	1.20	2.15	15.00
This corn is still the earliest we have yet found. Does not grow tall.				
Golden Giant.....	.25	1.15	2.05	14.00
A good yellow corn to follow Bantam as it matures a week later and has larger ears, 12 rowed, and of high quality.				
Golden Sunshine.....	.25	1.15	2.05	14.00
An extra early yellow corn. Matures a week earlier than Golden Bantam. Ears 6 to 7 in. long, 12 rowed and deep yellow. Quality very good.				
HARRIS' EXTRA EARLY BANTAM. See page 14.....	.30	1.20	2.15	15.00
NORTHERN CROSS (NEW). Outstanding hybrid. See page 13..	.55	3.00	5.75	45.00

Loewenzahn (Ger.)

DANDELION

Dente di leone (It.)

	Oz.	¼ lb.	lb.	10 lbs.
ITALIAN DANDELION. Cicoria Catalogna.....	\$.25	\$.75	\$2.50	\$
Large dark green dandelion like leaves, which are cut several times during the season for "greens." Ours is the true Italian stock.				
THICK LEAF. Dark Green.....	.50	1.35	4.50	40.00
This strain is the thick leaf, dark green variety. Upright growing plant.				
FRENCH STRAIN.....	.55	1.60	5.50	50.00
This seed produces large stocky thick leaved plants with "white ribs." The plants are not as upright as the above strain.				

DILL—Long Island Mammoth

Dill (Ger.) *Aneth (It.)*

This dill is much superior to the common dill, being larger and more productive.

Oz. 10c; $\frac{1}{4}$ lb. 20c; lb. 70c; 10 lbs. \$6.00; 100 lbs. \$55.00.

EGG PLANT

Eier pflanze (Ger.) *Melanzani (It.)*

An ounce of seed will produce about 2000 plants.

Black Beauty—Early Prolific Strain

We can strongly recommend this stock as it is the finest strain of Black Beauty that we have ever seen. The plants are strong and sturdy, producing an abundance of uniformly large handsome dark purple fruit even here in the North. See price below.

Black Beauty Egg Plant

	Oz.	$\frac{1}{4}$ lb.	lb.
BLACK BEAUTY. True Stock. See above.....	\$.50	\$1.50	\$5.00
EARLY LONG PURPLE. Early and Prolific. Dark. True Stock.....	.45	1.20	4.00
Fruit 10 to 12 in. long, not over 2 to 3 in. through. Early and very prolific, deep purple.			
Extra Early Dwarf Purple or Black King.....	.45	1.20	4.00
Very early, dark and prolific, but not as large as above kinds.			

Fenchel (Ger.)

FENNEL

Finocchio (It.)

MAMMOTH (Improved Florence.) Large Round Bulb. Best for Market. This exceptionally fine strain produces large, round bulbs. Oz. 15c; $\frac{1}{4}$ lb. 45c; lb. \$1.50.

Endivien (Ger.)

ENDIVE

Endivia (It.)

An ounce of seed will sow about 100 feet of row; 2 to 2 $\frac{1}{2}$ lbs. per acre.

	Oz.	$\frac{1}{4}$ lb.	lb.
GREEN CURLED PANCAHER. Best for Late Market. Pink Ribbed....	\$.15	\$.40	\$1.25
The leaves are not so finely cut as the Green Curled. Has fuller, heavier hearts. A favorite of market gardeners. This variety does best on rich soil.			
Green Curled.....	.15	.40	1.25
Large leaves finely cut and curled. Green ribbed.			
FLORIDA DEEP HEART.....	.15	.45	1.50
Broad leaves, dark green, slightly curled, produces large deep heads, which blanch well in the center. One of the best varieties, especially for late market.			
FULL HEART BATAVIAN (Escarolle). True Dark Green Strain.....	.15	.45	1.50
Our strain of this variety produces heads which are tightly packed with broad dark green leaves. Blanches well. A very superior strain.			
FRENCH ENDIVE—Witloof Chicory. Special Forcing Strain.....	.30	.90	3.00
The seed we offer is an exceptionally fine strain, being grown from especially selected fully developed forced heads and will give a very high percentage of perfect heads. An ounce of seed will produce 3000 to 5000 roots.			

Knoblauch (Ger.)

GARLIC

Aglia (It.)

The bulbs should be separated into flakes or "cloves" and set out like onion sets. Bulbs for planting: Lb. 45c; Transportation paid. Not paid: 5 lbs. or more 35c per lb.

Blatterkohl (Ger.)

KALE

Cavolo verdi (It.)

One pound of seed will sow about one acre of land.

	$\frac{1}{4}$ lb.	lb.	10 lb.
DWARF CURLED or Blue Scotch.....	\$.30	\$1.00	\$9.00
Very fine curled leaves, of dwarf habit and deep bluish green color.			
Tall Scotch Curled.....	.30	.90	8.00
Grows 2 ft. tall with finely curled leaves. Very hardy.			
SIBERIAN. Also called "Sprouts".....	.30	.90	8.00
Dwarf spreading, broad leaves curled only at the edges. Color blue gray. Very hardy.			

Kohlraben (Ger.)

KOHL RABI

Cavolo rapa (It.)

An ounce of seed will sow about 200 ft. of row.

	Oz.	$\frac{1}{4}$ lb.	lb.	10 lb.
EXTRA EARLY WHITE. (New).....	\$.35	\$1.10	\$3.50	\$32.50
A very superior short top stock, maturing before Early White Vienna. Best for outdoor and forcing.				
Early White Vienna.....	.20	.55	1.75	16.50
Round white bulbs, very early. Can be used 10 weeks after sowing.				

HERBS—See page 34.

Lattich (Ger.)

LETTUCE

Lattuga (It.)

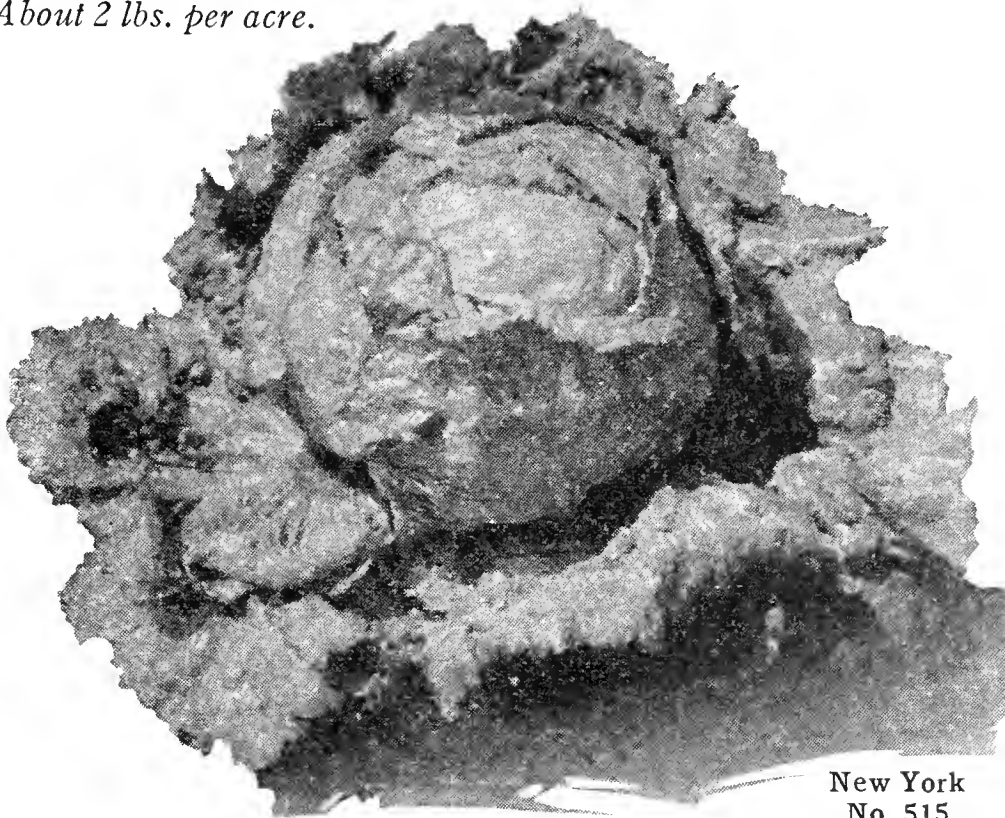

An oz. of seed will sow 250 ft. of row. About 2 lbs. per acre.

New York No. 515 A New "California Iceberg" Lettuce for the East

This is the surest heading stock of the New York or Wonderful lettuce which we have ever seen. In our trials each year both on muck and upland this summer it shows marked superiority in this respect.

The type and general appearance is shown in the photo to the right. The heads are solid and of an attractive bright green color. In our trials New York No. 515 matured a little earlier than New York No. 12.

We urge growers who have not been successful in raising the New York type of lettuce to try this new strain. See price below.

New York
No. 515

White Boston—Special Strain

One important thing about the Harris' Strain of White Boston is the uniform manner in which it heads, so that there is practically no waste in cutting a crop.

It has proved itself more resistant to tip burn than any variety we have ever seen.

You cannot get a better strain of White Boston Lettuce no matter what you pay for the seed. Our stock is *equal to any strain obtainable* even at twice the price See prices below.

Grand Rapids U. S. No. 1—A Better Forcing Curly Lettuce

This new strain of Grand Rapids has proved to be very superior both for forcing and outdoor growing where a "curly" lettuce is desired and is well worth trying. The plants are a little larger and more robust than other strains, very uniform for size and well curled. The color is the much desired light green. See price below.

	Oz.	¼ lb.	lb.	10 lb.
BIG BOSTON. Special Strain(100 lbs. \$90.00)	\$.15	\$.40	\$1.25	\$10.00
An exceptionally fine strain of this popular variety. The heads are solid and compact, and stand a long time. There is no better stock.				
Black Seeded Simpson15	.40	1.25	11.50
An excellent loose headed variety.				
Chicken15	.40	1.25	11.50
Immense leaves. Runs up rapidly. Use for green feed for chickens.				
COS or ROMAINE. Trianon Self-folding. The best variety15	.45	1.50	14.00
Large long heads of fine quality and attractive appearance. Used for forcing under glass and outdoor culture. Always finds a ready sale.				
GRAND RAPIDS15	.45	1.50	14.00
This strain is excellent for greenhouse growing and is used by the most critical greenhouse men. The leaves are light green, uniformly well curled and the plants strong and sturdy.				
GRAND RAPIDS. U. S. No. 1. See above25	.70	2.20	20.00
Iceberg15	.45	1.50	14.00
For open ground. Large, firm heads, curled and blistered leaves; light green.				
May King. For Frame Forcing15	.40	1.25	11.50
A very early head lettuce for open ground or forcing.				
NEW YORK No. 12—California "Iceberg." For the East20	.60	1.85	17.50
This improved early strain of this variety is especially valuable for the East.				
NEW YORK No. 515. New "Iceberg" Type. See above25	.70	2.20	20.00
SALAMANDER. (Dreer's All Heart or Black Seeded Tennis Ball)15	.40	1.25	11.50
Large heads, stands well in hot weather.				
WHITE BOSTON. Special Strain. See above ..(100 lbs. \$125.00)	.20	.55	1.75	15.00

Lauch (Ger.)

LEEK

Porro (It.)

ELEPHANT. Large thick stalks..... Oz. 30c; ¼ lb. 85c; lb. \$2.75

This new variety is a distinct improvement over the old varieties of leek. The stalks are large and very sturdy. The bottoms clear pearly white and smooth with the white part extending far up the stalk. An ounce of seed will sow about 200 feet of row.

*Melone (Ger.)***MUSKMELON or Cantaloupe***Popone (It.)**An ounce of seed will plant about 50 hills; 2½ to 3 lbs. per acre.***Delicious
The Earliest Large Melon**

This fine melon is becoming more and more popular for local sales and roadside stands. It is the earliest large melon of high quality we have ever raised, and we recommend it highly for roadside trade and local markets. It will not stand long distance shipping.

All who saw our crop of Delicious this summer were greatly impressed by the large yield, vigor of vine, uniformity of size, type, remarkable sweetness and fine flavor of our stock. See prices on next page.

"At times in the past I have expressed to you the feeling that your prices on melon seeds were too high. But now I will say that any time I can feel confident of securing as fine seeds as the Delicious melon bought of you last season, I will gladly pay almost any price within reason.

Not only were the melons of high quality, but the uniformity of the quality and appearance were of the utmost commercial importance."

March 3, 1937

Roger Millar, Lewiston, N. Y.

Delicious Muskmelons

A Typical Spot in our 1937 Seed Field. See also page 1.

Market King**A New Medium Size Melon for Market and Shipping**

We find this new variety an exceptionally good melon for shipping as well as for local markets where a medium size melon is wanted.

The fruits resemble Sugar Rock but are more oval in shape and a little larger. They grow very even in size and extremely heavily netted. The skin is pale green turning creamy yellow when ripe. The flesh is very thick with a small seed cavity, deep orange in color, of fine texture are sweet and unusually rich flavor.

The vines are more healthy and vigorous than any kind we have seen, producing an enormous yield of fine fruit. This melon ripens normally a week later than Bender's and practically the same time as Sugar Rock. See prices on next page.

Sugar Rock or Honey Rock

We have a fine stock of this popular melon which is largely grown in many sections because of its attractive appearance, fine flavor and ability to stand handling.

The melons are nearly round about 5" in diameter, with a light green skin which turns to pale yellow when ripe. They are hard as a rock and covered with coarse heavy netting.

The flesh is thick, deep orange, of fine texture sweet and of an excellent flavor. See prices on next page.

This photo of a load of Bender's Surprise melons at Henry E. Miller's Farm was taken in 1936. He had many more loads like this in 1937.

**Bender's Surprise
Harris' Specially Selected
Northern Grown Strain**

This is without doubt the leading large melon for the East. These huge, heavily netted melons have no equal for attractive appearance, fine flavor and long keeping qualities.

We have bred and grown this stock for twenty years here on our own farm always paying special attention to high quality, earliness and trueness of type. This careful selection has made ours the *one* outstanding stock of this variety.

There is no use buying inferior seed when Harris' Northern Grown Strain can be purchased at such a low price. See price on next page.

MUSKMELONS continued on next page.

MUSKMELONS—Continued

	Oz.	¼ lb.	lb.	10 lb.
ARISTOCRAT. Superb Quality	\$.35	\$1.10	\$3.65	\$35.00
Large with very thick flesh of unexcelled quality. Does not keep well enough for shipping, but at roadside stands will command highest prices because of the fine quality and attractive appearance.				
BENDER'S SURPRISE. "Harris' Special Strain." See page 18.25	.75	2.50	22.50

Emerald Gem15	.35	1.10	10.00
Small, round, green, slightly netted, with yellow flesh of finest flavor; very early and prolific.				
GOLDEN CHAMPLAIN also called Lake Champlain.20	.55	1.75	16.50
The earliest melon and valuable on that account. Melons are medium size.				
HALE'S BEST. For Distant Markets15	.35	1.10	10.00
The earliest and best of the Rocky Ford type for the East. Medium size, oval fruit. Very heavily netted. Flesh thick, deep orange and of finest quality. The melons are remarkably uniform in size, shape and quality.				
Hearts of Gold15	.40	1.25	11.50
A fine melon for shipping in baskets—medium in size, round and well netted. Flesh orange yellow, of uniformly excellent flavor, firm and holds up well.				
MARKET KING. New. See page 1830	.85
SUGAR ROCK also called "Honey Rock." See page 1815	.45	1.50	14.00

Wasser-Melone (Ger.)

WATERMELONS

Cocomero d'acqua (It.)

An ounce of seed will plant about 25 hills; 2 to 3 pounds to the acre.

The varieties we have here listed are all suitable for growing in the North, as they are early and in our climate under usual conditions will produce ripe fruit before frost from seed sown in the open ground. See our general catalogue for full descriptions.

	Oz.	¼ lb.	lb.	10 lb.
FORDHOOK EARLY	\$.10	\$.25	\$.75	\$ 7.00

Large, oval somewhat flattened ends. Fine quality and prolific.				
WINTER QUEEN. White Skin. Long Keeper12	.30	1.00	9.00
WONDER MELON. (New)12	.30	1.00	9.00
The largest and best of the oblong varieties for growing in the North. They are early, dark green with bright red flesh of fine quality. Will produce large crops even where the seasons are short.				

Champignonbrut (Ger.)

MUSHROOM SPAWN

Fungo pratajola (It.)

Full directions for growing are sent with each order of spawn.

Finest pure culture spawn, absolutely fresh. Mushrooms can be raised in cellars or under greenhouse benches where the temperature can be kept between 50 and 60 degrees.

Bottle spawn has proved so superior to brick spawn that we now offer only bottle spawn to our customers. Ours is pure culture spawn grown by one of the largest mushroom producers.

BOTTLE SPAWN. (White). Grown in bottles under sterile conditions after which the bottle is removed and the spawn packed in a carton. One carton will spawn 40 sq. ft. of bed.

Price: Single Carton \$1.25; 3 cartons \$3.00. Prepaid. Not prepaid: 10 or more cartons at 80c per carton. Weight per carton about 1 lb. *Write for prices on larger quantities.*

MUSTARD

An ounce of seed will sow about 300 feet of row.

	Oz.	¼ lb.	lb.	10 lb.
FORDHOOK FANCY. (Long Standing)	\$.10	\$.25	\$.80	\$7.50
Leaves are slightly smaller and more finely cut and curled than the Southern Curled. A very pure stock.				
LONG STANDING. (Southern Curled)10	.25	.80	7.50
This new long standing kind will stand without bolting to seed for a long time. During the hottest part of the summer this variety has stood for three weeks after it was large enough to cut, without going to seed. The leaves are dark green with beautiful green finely curled edges.				

Ocher (Ger.)

OKRA or GUMBO

Ocra (It.)

PERKINS' LONG-POD. Standard Market Variety. Large green pods. Ours is a true uniform stock. *An ounce of seed will sow about 50 feet of row.* Oz. 10c; ¼ lb. 25c; lb. 65c.

Zwiebel (Ger.)**ONIONS****Cipolle (It.)**

An ounce of seed will sow 125 feet of row.
It requires 5 to 6 lbs. of seed per acre.

Early Yellow Globe**The Best Early Yellow Onion**

Earliness, enormous crops, fine appearance and unusually good handling and keeping qualities are the attributes of this onion which have made it jump to a leading variety for upland and muck, in the few years since it was first introduced. We are pleased to offer the same true stock of Early Yellow Globe which has produced such fine crops for our customers during the past four years.

The onions mature at least two weeks before Yellow Globe Danvers, are globe shaped, deep yellow in color and with a thick skin. See prices below.

"Seeds already purchased from you have done exceptionally well and have been highly satisfactory."
J. Stuart Cameron, Waltham, Mass. June 18, 1937.

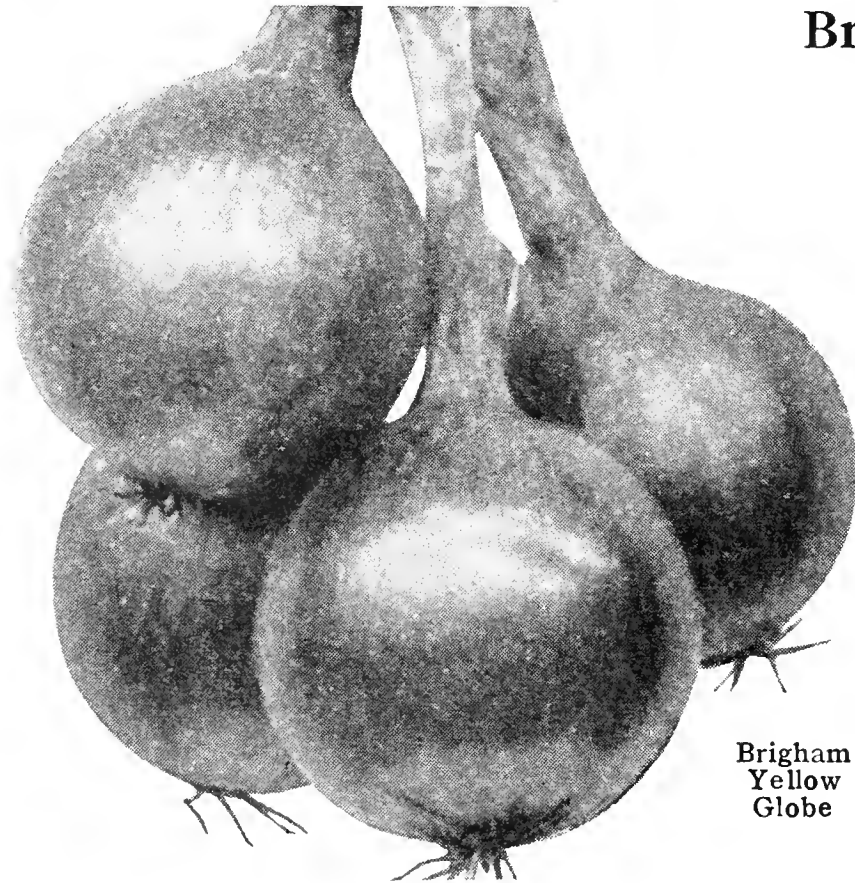

Early Yellow Globe
Grow these for large early crops!

Riverside Sweet Spanish

This fine onion can be grown almost anywhere in the East and is becoming more popular each year. It is an excellent variety both for upland and muck. The onions are large and handsome often weighing a pound or more and all fine keepers.

They require a little more time than the early varieties but are vigorous, hardy growers, withstanding adverse growing conditions better than any other kinds we know. See prices on next page. See also plants on next page.

Brigham Yellow Globe

Brigham Yellow Globe

Also Called "Michigan Onion" and "Michigan Strain"

This remarkable onion together with Early Yellow Globe has virtually eliminated all other kinds for growing on muck and is also very popular for upland. It is outstanding because of the large yields obtained, the fine deep brown color together with a heavy thick skin which makes it the best variety for storage.

The seed we offer is of the *true Brigham Strain* and is even more uniform for shape and size than it was when first introduced. See prices below.

GERMINATION TESTS

Every package of Harris' Seeds is marked with the germination test. We will be glad to tell any onion grower how our seed of any variety germinates in our tests before he buys the seed.

	$\frac{1}{4}$ lb.	lb.	10 lb.	100 lb.
BRIGHAM Yellow Globe. Also called "Michigan Onion." See above.....	\$.60	\$2.30	\$21.00	\$200.00
EARLY YELLOW GLOBE. Best early globe onion. See above.....	.60	2.30	21.00	200.00
EBENEZER or "Japanese." Grow for sets.....	.55	1.75	16.00	150.00
A very fine yellow onion that will keep all winter and is of mild, pleasant flavor. The onions are flattened and of a light, yellow color. It is important to get the true Ebenezer. We have it.				
EXTRA EARLY BARLETTA. For Pickling.....	.60	2.00	19.00	185.00
The best small white onion for pickling. Sow about 50 lbs. per acre.				

ONIONS continued on next page.

ONIONS—Continued

	$\frac{1}{4}$ lb.	lb.	10 lb.	100 lb.
JAPANESE BUNCHING. Large straight onions.....	\$.70	\$2.25	\$20.00	\$195.00
Grow 3 to 5 large straight mild white onions to a plant, is a rapid grower and produces marketable "bunch" onions very early. When fully grown, onions nearly are inch in diameter.				
Large Red Wethersfield60	1.75	16.00	150.00
Very large, deep red, flat. The best early flat red onion.				
Mammoth Silver King60	1.95	18.50	175.00
Very large white, flat onion used principally for bunching while green. Seed sown in the spring makes large bunching onions in July and August.				
MOUNTAIN DANVERS. For Early Market55	1.75	16.00	150.00
A fine globe shape onion, deep yellow in color and very firm. It ripens two to three weeks earlier than Yellow Globe Danvers—and is a fine keeper.				
OHIO YELLOW GLOBE55	1.75	16.00	150.00
We have a fine true strain of this popular variety. It produces large crops of long keeping onions.				
Prizetaker60	1.95	18.50	175.00
Large yellow onion of very handsome globe shape and mild flavor.				
RIVERSIDE SWEET SPANISH. See preceding page.....	.60	1.95	18.50	175.00
SOUTHPORT RED GLOBE. The Best Red60	1.95	18.50	175.00
Large, perfectly round, deep red onion; keeps well and is by far the best red variety. Ours is a very superior stock.				
SOUTHPORT WHITE GLOBE. (The Finest White)60	2.30	21.00	200.00
The largest and finest white onion. A very profitable variety for experienced growers as it always commands the highest prices.				
SOUTHPORT YELLOW GLOBE60	1.95	18.50	175.00
Of deep globe shape, large size. A week later than Yellow Globe Danvers.				
WHITE BUNCH. (White Lisbon)60	2.00	19.00	185.00
Popular in many markets. Forms mild sweet "green" onions early and flat medium size bulbs when mature.				
WHITE PORTUGAL or SILVER SKIN. Standard for Bunching60	2.00	19.00	185.00
Flat, white onions of mild flavor and early. Excellent for pickling and early green onions.				
White Welsh. Bunching Onions60	2.00	19.00	185.00
Does not form a bulb, but makes 3 to 7 onions to the plant; can be sown in the summer for early spring bunching onions. Perfectly hardy.				
YELLOW GLOBE DANVERS60	1.75	16.00	150.00
Our stock of this popular variety will produce onions of uniform globe shape with deep color and tight skin. We know of no better stock.				

ONION SETS

One peck of sets will plant 600 to 700 feet of row. Use 20 bu. per acre.

Note—At prices here quoted purchaser pays transportation on onion sets.

EBENEZER or "JAPANESE." The Best Yellow Sets. True Stock. 8 lbs. (Pk.) 90c; 32 lbs. (Bu.) \$2.75; 5 bu. or more at \$2.65 per bu.

SILVERSKIN (White). Best for bunching. 8 lbs. (Pk.) \$1.00; 32 lbs. (Bu.) \$3.00; 5 bu. or more at \$2.90 per bu.

Write for prices on larger lots.

ONION PLANTS

These plants which are grown in Texas have proved excellent for raising both early green onions and dry bulbs for late summer sale. More gardeners find it profitable each year to grow onions from our plants and our sales of onion plants in the past few years have steadily increased from a few thousand to over a million each year.

We offer the following two kinds which have proved the most satisfactory.

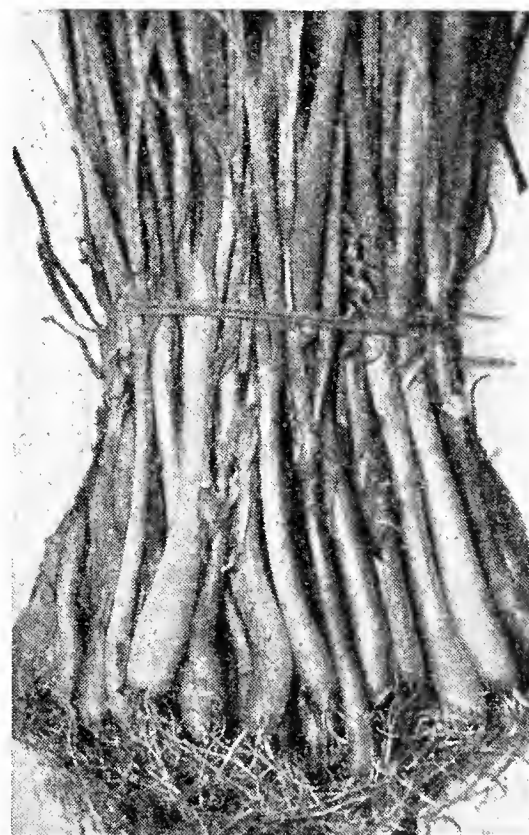

RIVERSIDE SWEET SPANISH. (Yellow). When set in the spring will produce large firm onions in 8 to 10 weeks. Grown from true seed; produces large onions of the finest type.

CRYSTAL WAX. (White). Best to grow green bunching onions. If allowed to mature the onions are large, flat, white and of superb flavor.

The above plants are tied in bunches of about 100 plants; 60 bunches (about 6000) make a full crate.

Price of either variety: 10 bunches (about 1000 plants) \$1.50; Full crate (about 6000 plants) \$6.00. Purchaser pays transportation. Weight per 1000, 6 lbs. Write for prices on larger lots.

Note: Onion plants can be supplied between April 25 and May 15th only. These plants can be ordered at any time for shipment between the above dates. Please state on the order when you want the plants sent.

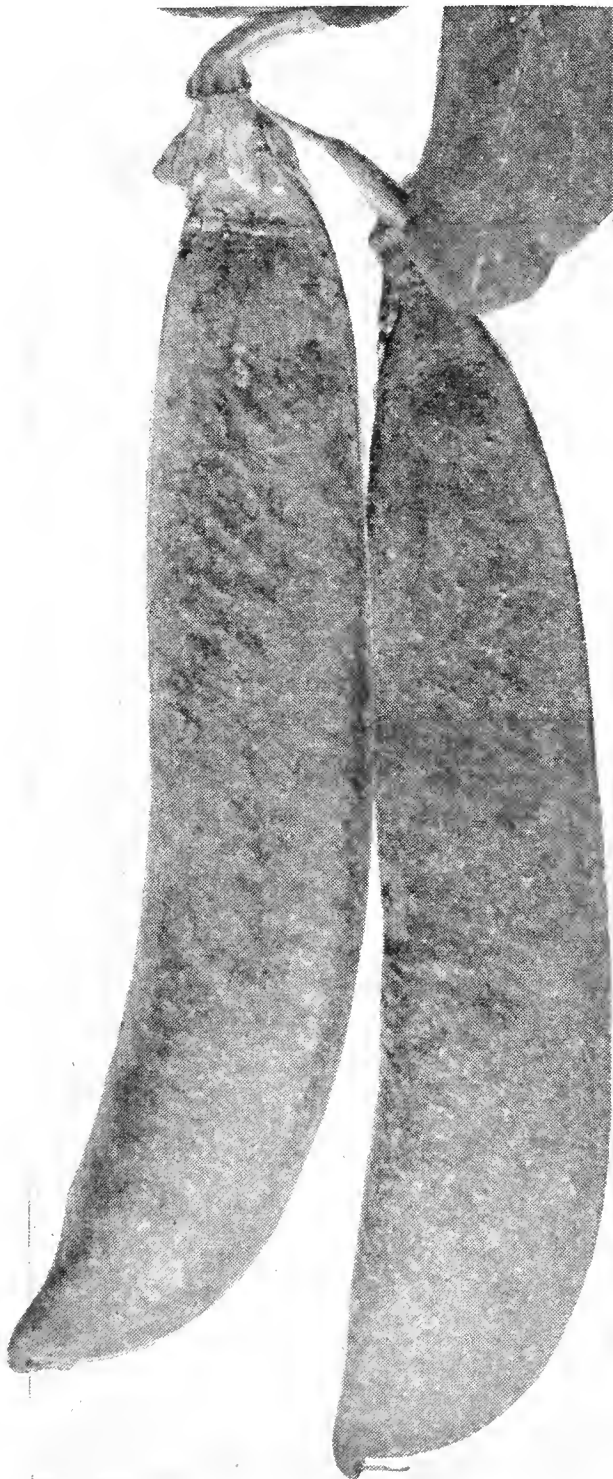

A Single Bunch of Onion Plants
(about 100 plants)

*Petersilie (Ger.)***PARSLEY***Prezzemolo (It.)**An ounce of seed will sow about 200 ft. of row.***Paramount—The Outstanding Parsley**

This is the finest and most uniformly curled strain of parsley we have ever seen. The color is a rich deep green, there are no flat leaves. The stems are of good length. Altogether this is a superb variety both for outdoor growing and forcing and we recommend it highly. See prices below.

	Oz.	$\frac{1}{4}$ lb.	lb.	10 lb.
Champion, or Triple Moss Curled	\$.10	\$.25	\$.80	\$ 7.50
This is a good ordinary parsley but not as finely curled as some of the others.				
DWARF PERFECTION. Finely Curled15	.40	1.25	11.00
This is a very superior strain of parsley. The leaves are beautifully cut and curled with practically no plain leaves. The color is uniform dark green and the stems a little longer than Paramount.				
HAMBURG. Long or Parsnip Rooted. Selected Stock10	.25	.80	7.50
The roots are 8 in. long parsnip-shaped, smooth and white. We have a very fine stock of this variety.				
PARAMOUNT. The Best Variety. See above15	.40	1.25	11.00
Plain—Uncurled leaves, used for flavoring10	.25	.80	7.50

Roger's Gilbo Peas

*Erbesn (Ger.)***PEAS***Piselli (It.)**One pound of peas will plant 100 ft. of row.**Two to five bushels per acre.*

25 lbs. or more of one variety will be supplied at the 100 lb. rate.

*At the prices here quoted peas cannot be sent prepaid. Purchaser pays transportation on peas except as follows: If your order for vegetable seeds including peas amounts to \$20.00 or more we will prepay the freight charges.

Rogers Gilbo**New Large Podded Main Crop Peas**

This fine new variety is one of the outstanding sorts of the Midseason Giant group, and resembles that variety very closely. Compared to Midseason Giant, Gilbo has the same sturdy vine and large yield of big pods, but is a few days earlier in season. Our experience shows also that Gilbo is more hardy so that the seed can be sown earlier than Midseason Giant. This is a real advantage.

The pods are very attractive, $4\frac{1}{2}$ to 5 in. long, dark green and pointed. The quality is very superior. We recommend this new variety highly and urge growers to try it this year. See prices on next page.

Dwarf Alderman

A true large podded Alderman type with dwarf sturdy vines.

This new large podded dwarf pea has become very popular for main crop as the large dark green pods are most attractive and command the best prices.

The pods are of true Alderman type with the added advantage of being grown on dwarf vines. The pods are borne in great abundance on strong sturdy vines about 2 ft. high. Matures about the same time as Alderman. See prices on next page.

Midseason Giant

Also called—Giant Stride, Asgrow 40, Number 10, Wyoming Wonder, etc.

This variety comes on between the early sorts and the late varieties and has shown a remarkable ability to stand up and bear well in *hot dry weather*. The pods are large ($4\frac{1}{2}$ to 5 in. long) dark green and pointed. The yield is large, the pods being borne in great numbers on strong vigorous vines about 24 in. high.

This is a high quality wrinkled variety and should not be sown until the weather is settled. See prices on next page.

PEAS—Early Varieties

Note—For prices of peas in amounts of less than 7½ lbs. see our general catalogue. A bushel weighs 56 lbs.

	NOT PREPAID* (see page 22)				
	1 lb.	7½ lb.	15 lb.	56 lb.	100 lb.
Alaska. (2 ft.)	\$.25	\$1.45	\$2.55	\$7.85	\$14.00
GRADUS, or Prosperity. (2½ ft.) Early	.30	1.50	2.70	8.40	15.00
Early and of highest quality. Standard market garden variety.					
HUNDREDFOLD (Blue Bantam or Impr. Laxtonian). (20 in.)	.30	1.50	2.70	8.40	15.00
Much like Laxtonian, but larger and better. Vines very strong and sturdy. Pods 4 in. long and deep green. A fine early dwarf pea.					
LAXTON'S PROGRESS. (18 in.) Large Pods. Medium Early	.30	1.50	2.70	8.40	15.00
We offer a very superior stock of this excellent variety. Pods are very uniform deep green, 4 to 4½ in. long and produced in great abundance. Ordinarily two pickings will clean the vines.					
LITTLE MARVEL. (15 in.)	.30	1.50	2.70	8.40	15.00
Very prolific, matures a day or two later than Nott's Excelsior and has pods a little larger; vines stocky.					
MAMMOTH PODDED EXTRA EARLY. (3 ft.)	.30	1.75	3.15	10.10	18.00
The earliest large podded variety. Seed semi-smooth, hardy and can be sown as soon as the frost is out of the ground. Crop short.					
Nott's Excelsior. (15 in.)	.30	1.50	2.70	8.40	15.00
Dwarf vines, medium-sized pods; one of the best early dwarf peas.					
THOMAS LAXTON. (3 ft.) Early	.30	1.50	2.70	8.40	15.00
Very early medium size pods. One of the standard and most profitable market varieties. Our stock is very fine.					
WORLD'S RECORD. (2½ ft.) For Early Market	.30	1.65	3.00	9.50	17.00
Earlier and larger podded than Gradus. Of the finest quality and a most profitable kind to follow the extra early kinds.					

Medium and Late Varieties

ALDERMAN. (4½ ft. to 6 ft.) Dark Podded	.25	1.45	2.55	7.85	14.00
Larger pods and better yield than the old Telephone. This is the best pea in the Telephone class. Pods are often 6 in. long and of a deep green color. Our stock of Alderman is very superior.					
Advancer. (2½ ft.)	.30	1.50	2.70	8.40	15.00
Pods three inches long, well filled; a heavy yielder.					
DWARF ALDERMAN. (New) (2 ft.) See opposite page	.30	1.60	2.85	8.95	16.00
LINCOLN. (2½ ft.) Finest Quality	.30	1.60	2.85	8.95	16.00
Long narrow pods completely filled with 9 to 10 large deep green peas of highest quality. Produces immense crops. A few days earlier than Alderman.					
Mammoth Melting Sugar. (4½ ft.) Edible Pods	.30	1.90	3.45	11.20	20.00
MIDSEASON GIANT. (2 ft.) Large Pods. See opposite page	.30	1.60	2.85	8.95	16.00
ROGERS GILBO (NEW) (24 in.) See opposite page	.30	1.75	3.15	10.10	18.00
Telephone. (4½ ft. to 6 ft.)	.25	1.45	2.55	7.85	14.00
Our seed is of a superior strain, having large very deep green pods.					

PEANUTS

EARLY SPANISH. The Earliest Variety lb. 35c; 5 lbs. \$1.50; 10 lbs. \$2.50
Can be grown here in the North.

Pastinake (Ger.)

PARSNIPS

Pastinaba (It.)

An oz. will sow 150 ft. of row. 2½ to 3 lbs. per Acre.

Harris' Model
The Whitest Parsnip

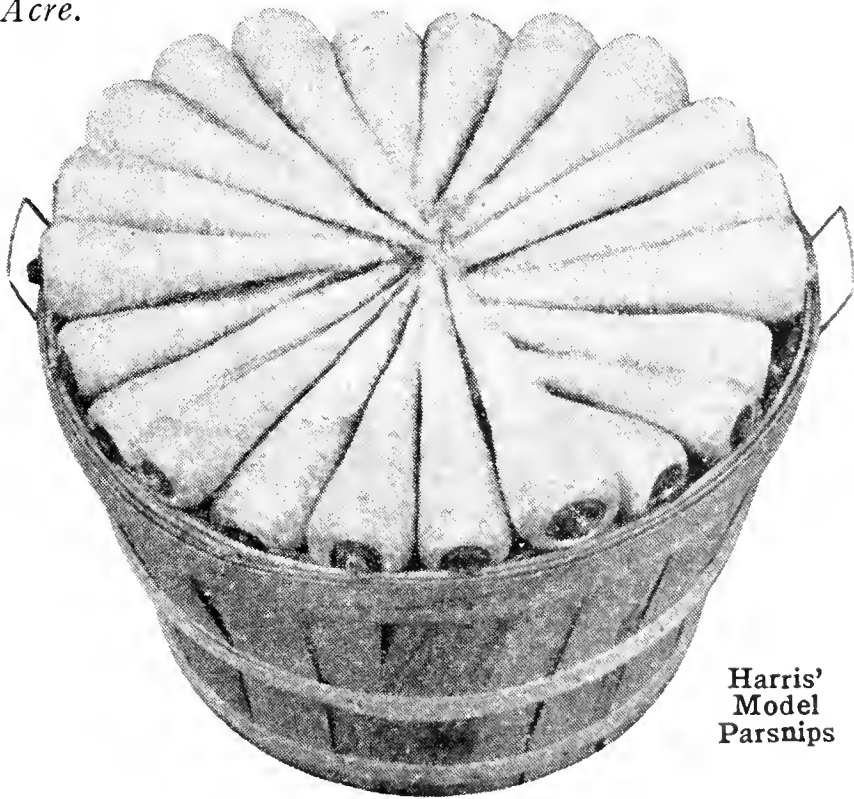

Our customers find that this is the best variety that they can grow.

These parsnips are snow white and smooth with practically no side roots or prongs. They are hollow crown and of good length, but not too long. Their whiteness is quite remarkable, giving the roots a very attractive appearance so that they sell for higher prices.

Our seed is entirely of our own growing from carefully selected transplanted roots.

Oz. 15c; ¼ lb. 40c; lb. \$1.20; 10 lbs. \$11.00; 100 lbs. \$100.00.

LONG HOLLOW CROWN. Long smooth roots, not as uniform or white as Model; Oz. 10c; ¼ lb. 25c; lb. 75c; 10 lbs. \$6.50. 100 lbs. \$60.00.

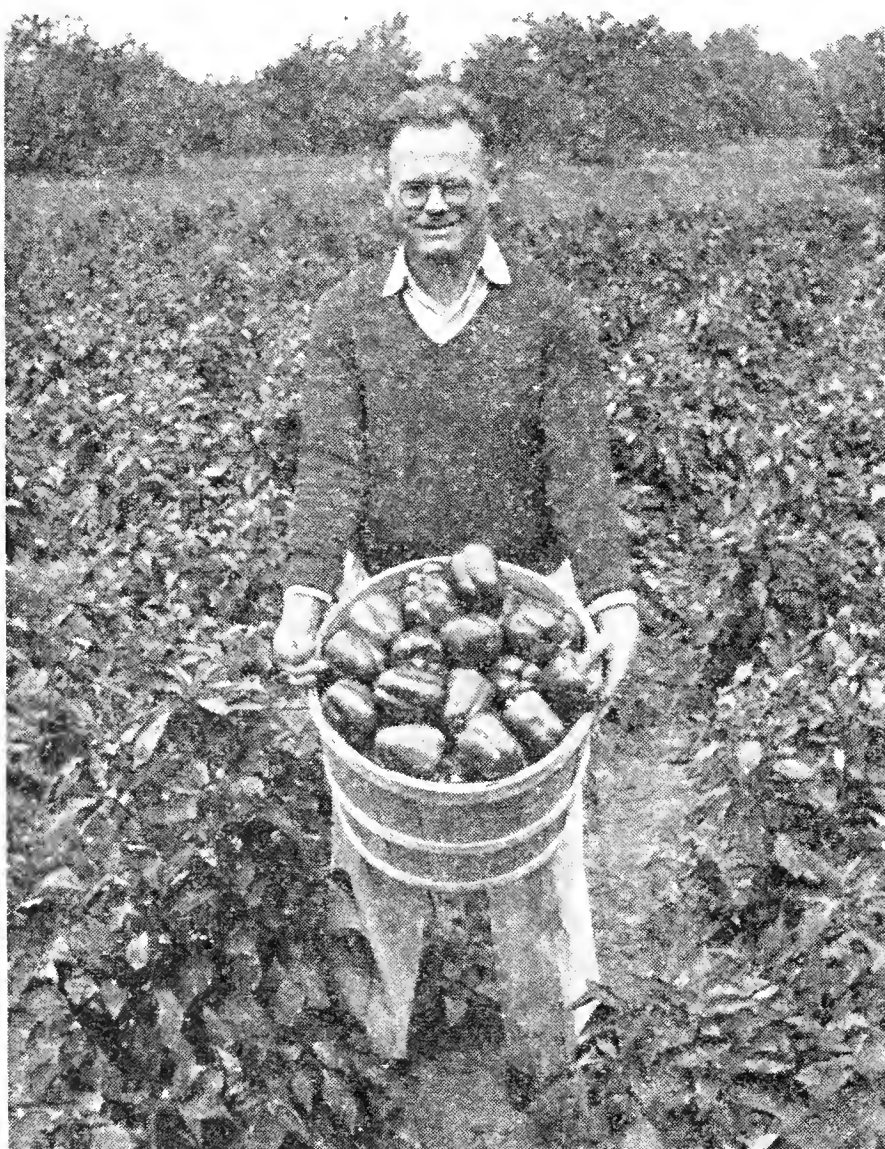

Harris' Model
Parsnips

*Pfeffer (Ger.)***PEPPERS***Peperoni (It.)**An ounce of seed will produce about 1000 plants.***Harris' Northern Grown Pepper Seed**

For over twenty years we have made a specialty of growing pepper seed on our own farms here in the North. We found years ago that almost all peppers which are ordinarily grown in warmer climates would not ripen enough fruit here to pay us to grow seed here, so we have developed a number of *special early varieties* that will mature and ripen an *abundance* of fruit even in our short seasons.

This has given us a reputation for peppers and several of our varieties have become so popular among market gardeners that much inferior Southern grown seed is being offered. Be sure to get Northern grown seed that will produce lots of fruit early in the season while prices are highest and also enable you to supply your market with ripe peppers. Get your seed direct from the originators. We do not sell to dealers.

Harris' Wonder Peppers. Photo in our 1937 Seed Crop.
Only sixteen peppers cover the top of this standard bushel basket.

Harris' Wonder **New—Early—Prolific** **Thick Meat**

We have bred this pepper to meet the demand for an early variety having the thick flesh and smooth skin of California Wonder. With this in mind in 1930 we made crosses between California Wonder and Harris' Early Giant and have grown and selected many generations of the hybrid, always following this fixed ideal which we had in mind.

We believe we have reached our goal, and this pepper which is known as Harris' Wonder combines those characters which growers have so long wanted, i.e., smoothness, thick meat, high yield and sufficient earliness to ripen fruit in the North before frost. Those who were fortunate enough to have a little of this seed last year have praised it most highly and people who saw our seed crop this year actually marvelled that a single variety could have all of these fine characters. We will no doubt be sold out of seed before the season ends and advise that our customers order early to avoid disappointment.

See prices on next page.

Harris' Early Giant—The Earliest Large Pepper

Harris' Early Giant which we introduced a number of years ago is recognized as the standard large early variety and gardeners in the North find it a very profitable crop to grow.

Harris' Early Giant will produce a large number of peppers about 4½ in. long and 4 in. across, and is only a week later than Harris' Earliest, the earliest pepper grown. See prices on next page.

Harris' Improved SQUASH Pepper—Very Early and Heavy Yields

This pepper replaces the old type known as Squash, Cheese, Sunnybrook, etc.

It is so early and prolific that it produces three times as many peppers as any other "Squash or Cheese" pepper which we have seen. This early character and high yield make it a profitable kind to grow even here in the north. The fruit is the true "Squash" shape, with very thick flesh which is mild and sweet. See prices on next page.

Harris' Earliest—The Earliest Sweet Pepper

Harris' Earliest is an invaluable variety for the extreme northern parts of the country where other peppers will not ripen. We grow and check in our trials practically every new pepper which is brought out and we have not seen one which is earlier. It is the result of twenty years of growing here in the North and constantly improving it for size, earliness and yield. The plants are not large but are literally covered with medium size, attractive bright red fruit. If you want early fruit or have trouble getting peppers ripe we recommend that you plant Harris' Earliest. See prices on next page.

Harris' "King of the North"
Extremely Large, Early
and Prolific

Since we introduced this variety in 1934 it has earned a reputation of producing greater yields of large peppers here in the North of any variety grown. The plants are medium size, branching and literally covered with the immense fruit. The size and shape of the peppers is well shown in the photograph to the right.

The flesh is firm, mild and sweet. If you have not done so we urge you to try these peppers this year. See prices below.

Harris' "King of the North" Peppers

Hot Portugal—Large

If you want lots of large, long *hot* peppers, grow this kind. The fruit is long, pointed and quite smooth for a pepper of this type. They normally average six inches or over in length and are borne profusely on the sturdy plant. This pepper is bright red when ripe and in addition to its large size, is just as hot as the old Giant Cayenne. See prices below.

	Oz.	1/4 lb.	lb.
CALIFORNIA WONDER. Large, thick flesh.....	\$.50	\$1.50	\$5.00

*Radies (Ger.)***RADISH***Ravanelli (It.)* $\frac{1}{4}$ lb. of seed will sow about 300 ft. of row.

Note—Every package of Harris Seeds is marked with the germination test. To growers who are interested we will be glad to furnish germination figures of our radish seed before they buy their seed.

Cavalier
NEW Short Top
Scarlet Globe

Seldom has a new variety met with such instant and general approval as this new radish. Growers everywhere have been most enthusiastic over it. The short tops, deep scarlet color, beautiful shape and extreme uniformity and ability to stand a long time which makes it possible to pull practically 100% number one radishes, make it the best forcing type we have ever seen. Leading growers tell us that these radishes sell for the best prices even when the market is slow.

See prices below.

"Cavalier Radish has proved to be way ahead of any radish we have ever had. Last fall (1936) from one bed 70 ft. x 150 ft. we pulled 2761 doz. bunches Early Scarlet Globe. This fall we harvested 4162 doz. bunches of Cavalier from the same bed."

*Alonzo Parr, Irondequoit, N. Y.
 November, 23, 1937.*

Cavalier Radishes

This photo shows Mr. Parr in one of his large houses of this fine radish.

Early Scarlet Globe Radish—Special Strain

This is the finest both for outdoor and greenhouse growing of any strain of regular Early Scarlet Globe on the market today.

The radishes are the true olive shape, and of an attractive bright red color. They are early and very uniform in maturity and have tops which though a little taller than Cavalier do not grow too large. The seed is vigorous and of high vitality which is of utmost importance to the greenhouse grower. See prices on opposite page.

Comet (NEW)

Round, Bright Scarlet—Long Standing

In our trials during the past three years this variety stood longer than any other kind, even attaining a growth of 2" in diameter without becoming soft. It is a very attractive radish, nearly all round, with fine tap roots, brilliant scarlet in color and medium tops. Growers who desire a round radish both for outdoors and forcing will do well to try this new kind. See prices below.

Icicle Radish (White)

Short-Topped Strain—Also Called Pearl Forcing

This is an ideal stock of Icicle Radish, both for forcing and outdoors and it can also be grown successfully on muck. The radishes are uniformly smooth and clear white. The tops do not grow too long in the greenhouses or frames, but are plenty long for bunching when grown outdoors. See prices on opposite page.

Rhabarber (Ger.)

RHUBARB or PIE PLANT

Rabarbaro (It.)

One ounce of seed will sow about 100 feet of row.

Myatt's Linnaeus. Early, large stalks. $\frac{1}{4}$ lb. 45c; 1 lb. \$1.50; 10 lbs. \$14.00

MacDonald Rhubarb Roots

We are pleased to offer again this year fine roots for the famous MacDonald Rhubarb. This rhubarb is the most distinct improvement made in rhubarb in many years.

The plant is vigorous and strong, producing large tender stalks which are deep crimson in color. They make a very attractive bunch and when cooked the sauce is a beautiful deep pink color and of excellent flavor. Market growers who have been fortunate enough to get these roots in the past find this rhubarb sells readily at the highest prices.

Roots only—Strong divisions. Not prepaid: 10 for \$2.50; 100, \$18.00; 1000, \$160.00. See page 34 for other Rhubarb Roots.

Fordhook Giant Swiss Chard

Spinat (Ger.)

SPINACH

Spinace (It.)

Sow about 20 lbs. of seed per acre in rows.

*NOTE—At the prices here quoted spinach seed cannot be sent prepaid. Purchaser pays transportation on spinach seed except as follows: If your order for vegetable seeds including spinach amounts to \$20.00 or more we will prepay the freight charges.

We shall be glad to quote special prices to growers who use larger amounts of spinach. Please write. 25 lbs. of any one variety will be furnished at the 100 lb. rate.

Viking (NEW) Early—Large Leaved Long Standing

This new spinach has proved to be a most excellent kind for spring sowing as it grows very rapidly getting to cutting size early. It will continue to grow and produce immense plants without going to seed for a long time.

The large leaves resemble Nobel Giant Leaved in habit of growth but are darker and more crumpled. Viking will produce extraordinary large crops of fine looking spinach that sells well in markets. See prices below.

Viking Spinach

Special Summer Savoy An Extra Selected Long Standing Bloomsdale

We recommend this remarkably fine strain of Long Standing Bloomsdale as it is an exceptionally *long standing* stock. In appearance Special Summer Savoy resembles our Long Standing Bloomsdale, except that it has a slightly smaller frame and is a darker green color. The leaves are more crumpled or savoyed if possible and the yield per acre is very large. We recommend this valuable variety to spinach growers who demand only the finest. See prices below.

Blight Resistant Savoy—For Fall Sowing True Virginia Strain

We offer the *true Virginia strain* of this spinach which is almost 100% resistant to blight. This strain can be depended on to produce large crops of fine dark well crumpled spinach in the fall where other varieties will blight and fail. We do not recommend this for spring sowing in places where blight does not ordinarily affect spinach in the spring, as it does not stand as well as most other kinds, although our strain will stand three to four days longer than many strains of Blight Resistant Savoy which are now sold. See prices below.

	NOT PREPAID* (see above)			
	1 lb.	10 lb.	100 lb.	500 lb.
BLIGHT RESISTANT SAVOY-LEAF. For Fall Crop. See above	\$.22	\$1.90	\$17.00	\$80.00
KING OF DENMARK. Longest Standing	.23	2.00	18.00	85.00
This spinach will stand longer than any other kind. The leaves are very dark green, quite thick and have small stems. On this account and because of the heavy yield this is one of the best varieties for canning. True stock.				
LONG STANDING BLOOMSDALE. For Spring Sowing	.22	1.90	17.00	80.00
We have an exceptionally well bred strain. Large deep green, well crumpled leaves which produce enormous crops and stand a long time without bolting to seed. We recommend this stock.				
OLD DOMINION. (New). For Fall Crop	.23	2.00	18.00	85.00
This spinach is becoming very popular for spring sowing in places where blight affects spinach and also for early fall sowing as it is <i>blight resistant</i> and will stand longer without going to seed than Blight Resistant Savoy. The leaves are large, dark green, well blistered or "Savoyed" producing large crops which stand up well when shipped.				
NEW ZEALAND. Not a true spinach. Valuable for summer	.45	4.25	40.00	195.00
NOBEL GIANT-LEAVED	.23	2.00	18.00	85.00
Large, early, medium dark nearly smooth leaves. Grows rapidly and is ready to cut early. Remarkably long standing. An excellent and profitable kind for spring sowing where large volume is wanted.				
PRINCESS JULIANA	.22	1.90	17.00	80.00
Grown chiefly because of its well crumpled, remarkably thick leaves, but will not produce as large crops as some of the more popular varieties.				
SPECIAL SUMMER SAVOY. See above	.22	1.90	17.00	80.00
VIKING. (New). Large-Leaved—Long Standing. See above	.24	2.10	19.00	90.00

Kuerbiss (Ger.)

SQUASH

Zucca (It.)

Harvesting Blue Hubbard Squash for Seed on Moreton Farm

Blue Hubbard—Harris' Selected Strain

This stock is the result of years of close breeding and is considered the finest purest stock grown. It can be relied on to produce large yields of large true type squash. Our seed is all of our own growing here on Moreton Farm.

Although originally a New England variety, the fine quality yield and fine keeping ability have made this a most popular variety throughout the east. There is always a good market for Harris' Blue Hubbard. See prices below.

Warren Squash—Improved Essex Hybrid (New England Strain)

This fine old New England squash has become popular in many sections which formerly would not use "orange" squash. In sections where this type is grown our stocks has proved very satisfactory.

The squash are early, medium size, very uniform in shape and heavily warted. The vines produce large crops. We have bred this strain with a well formed but not too prominent "button." The flesh is fine grained, extra thick and the color a beautiful deep orange red. Seed of our own growing. See prices below.

WINTER SQUASH

1/4 lb. of seed will plant 50 hills; 3 to 4 lbs. of seed per acre.

	Oz.	1/4 lb.	lb.	10 lb.
BLUE HUBBARD. Selected Strain. See above.....	\$.20	\$.60	\$2.00	\$17.50
Boston Marrow.....	.10	.25	.80	7.50
Popular fall squash, deep orange color. Used principally for canning and pies.				
BUTTERCUP. (New).....	.25	.70	2.25	20.00
This new small squash has exceptionally thick flesh and fine quality and no doubt will be very popular for roadside stands. See full description in our Retail Catalogue.				
DELICIOUS.....	.15	.40	1.35	12.50
Smaller than Hubbard, but of finer quality, deeper green shell with orange flesh, dry and sweet.				
GOLDEN DELICIOUS.....	.15	.40	1.25	11.50
An excellent small yellow squash for roadside and market. Superb quality.				
Golden Hubbard.....	.15	.35	1.10	10.00
The same shape as Hubbard but with deep orange yellow skin.				
HUBBARD—True.....	.15	.35	1.10	10.00
Dark green smooth skin, fruit of high quality. We have a fine true strain.				
IMPROVED WARTED HUBBARD.....	.15	.40	1.25	11.50
Larger, more warted and darker green than the true Hubbard squash.				
QUALITY. The richest small squash.....	.25	.70	2.25	20.00
An unexcelled small squash for roadside and market. Dark green, 7-9 in. in diameter, heart shape. Flesh is exceptionally dry and sweet. Seed of our own growing.				
TABLE QUEEN. Also called Des Moines, Acorn and Queen Ann. .	.15	.40	1.25	11.50
Small dark green fruit 5 to 6 in. long. 4 1/2 in. in diameter, deeply ribbed and very hard. We have a fine true stock of this popular variety.				
WARREN. Improved Essex Hybrid. See above.....	.20	.60	2.00	17.50

SQUASH continued on next page.

SUMMER SQUASH

$\frac{1}{4}$ lb. of seed will plant about 100 hills; 5 to 6 lbs. of seed per acre.

Giant Summer Straightneck—Clear Bright Yellow Finest Market Garden Stock

This is the original Harris' Strain of Straightneck which has been so popular among gardeners because of the very large per cent of straight fruit, with thick meaty necks of the desired type. The color is a bright clear yellow. We grow all the seed we sell on our own farm from carefully selected stock seed. Growers find that this is the most uniform strain they can buy. See prices below.

CHAR-GRO

New Granular Fertilizer with Charcoal Base

Has proved exceptionally effective on vegetable crops. Charcoal prevents leaching and waste. Use only three-quarters as much as ordinary fertilizers. 4-16-4 analysis.

Growers Price: \$2.75 per 100 pounds
f. o b. Coldwater

Seed Field of Straightneck Squash on Moreton Farm

Giant Summer Straightneck—Butter Yellow

Market gardeners whose demand is for summer squash of butter yellow color will find this new strain ideally suited to their needs. It is early and very prolific and the fruits are quite smooth and entirely yellow even when very young. This type of Straightneck has been popular with many New England market gardeners. We have grown a crop of seed this year on our own farm, and can recommend it. See price below.

Early Yellow Prolific

A New Summer Squash of Great Merit

We consider this one of the outstanding triumphs of plant breeding in recent years. These are straightneck squash, not as large as the Giant varieties, but they are borne in great profusion on the dwarf vines. They are remarkable for their smooth skin and clear bright yellow color, having no trace of green even when very young.

If you grow summer squash we are sure you will want to give this a trial. See price below.

	Oz.	$\frac{1}{4}$ lb.	lb.	10 lb.
Early Giant Crookneck.....	\$.15	\$.35	\$1.10	\$10.00
Larger than the old Bush Crookneck and equally early. True strain.				
Early Yellow Bush Scallop.....	.15	.35	1.10	10.00
Similar to the white, except in color.				
GIANT SUMMER STRAIGHTNECK. Clear Bright Yellow.				
See above.....	.15	.40	1.25	11.50
GIANT SUMMER STRAIGHTNECK. Butter Yellow. See above	.20	.55	1.75	16.50

ITALIAN VEGETABLE MARROW (Cocozelle).....	.15	.40	1.25	11.50
Long mottled green fruit of high quality. We have a fine stock which will produce dark green squash of uniformly good length. Bush vines.				
MAMMOTH WHITE BUSH SCALLOP also called "Cymling"...	.15	.35	1.10	10.00
The popular type, producing large yields of thick creamy white, well-scalloped fruit. Bush vines.				
Vegetable Marrow (English) White.....	.15	.40	1.25	11.50
The fruit is 8 in. to a foot long, 4 to 5 in. in diameter and creamy white. Running vines.				

Harris' Tomato Plants

We have a reputation for producing fine, sturdy, true to name tomato plants and this year have enlarged and improved our equipment so that our customers will get better service than ever before. They can be furnished either ready to set out in the open ground, or, if preferred, small plants which can be grown in frames for a few weeks before setting out. See page 35 for prices and varieties.

*Tomate (Ger.)***TOMATOES***Pomo d'oro (It.)**An ounce of seed will produce about 2000 plants.***Harris' New York State Certified Tomato Seed**

New York State Certified Tomato seed must meet the highest standards of purity and freedom from disease.

For the third year we are pleased to offer New York State Certified Tomato seed. It will interest our customers to know that our methods of growing and curing seed are so careful and our stocks so pure and disease free that since the beginning we have not had to change our methods in any particular to conform with these very strict standards of the New York State Seed Improvement Association.

Our careful methods and growing tomatoes for seed only, the way we do, costs us more but we feel that we should do everything in our power to furnish only the best possible seed that can be obtained. The results our customers get make it well worth while. A few ounces of seed will plant a large plot of tomatoes. Insist on getting only the best regardless of price. It will repay you many times over.

**NYSTATE (New)
Early, Thick Meated,
Heavy Cropper**

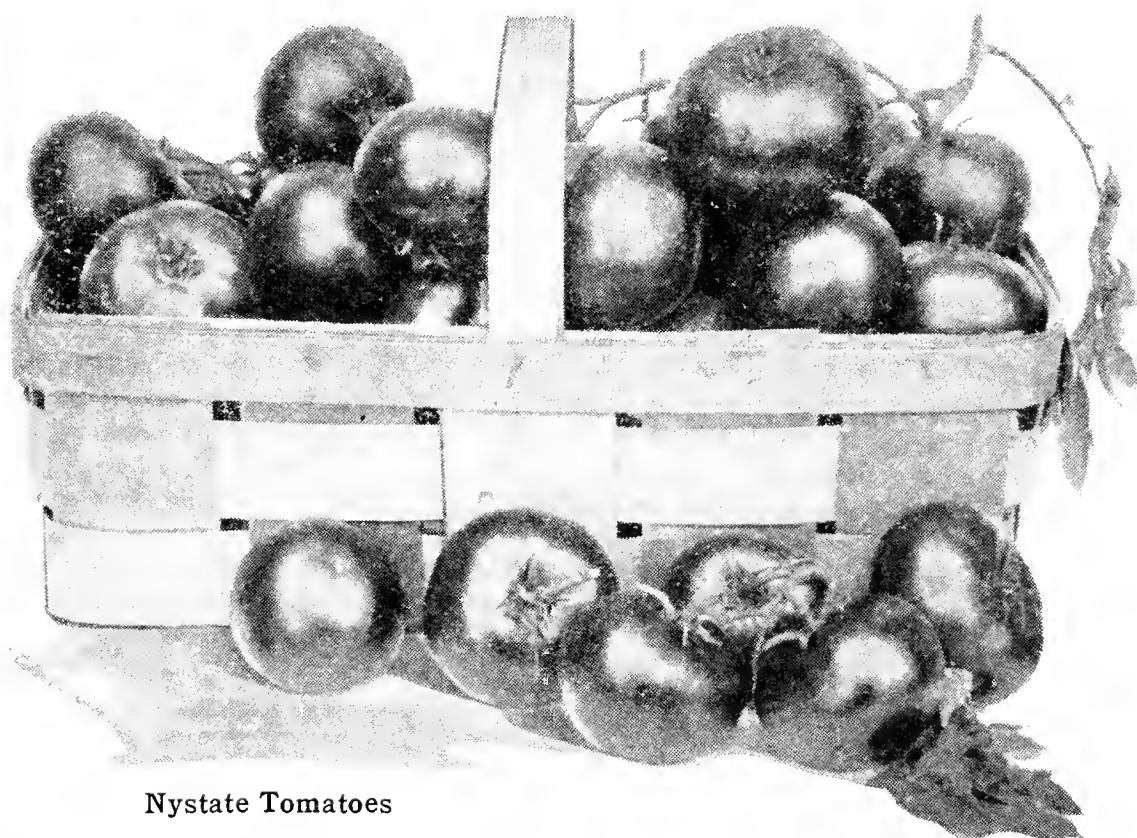

Since its introduction in 1936 this tomato has become recognized as an excellent kind for market.

NYSTATE was originated at and introduced by the New York State Agriculture Experiment Station.

The fruit is very attractive in appearance being of a slightly flattened globe shape, very smooth, resistant to cracking and an excellent deep red color which extends all through the fruit. The flesh is solid and of outstanding fine flavor, being very mild and sweet. NYSTATE ripens about the same time as

John Baer and is an extremely heavy producer. You will do well to try some NYSTATE.

Certified Seed of our own growing. See prices on next page.

Nystate Tomatoes

**New Rutgers Tomato
An Extra Large and Solid Main Crop Sort**

This new tomato certainly deserves the great popularity it has attained since its introduction. It was originated by Dr. Schermerhorn of the New Jersey Agriculture Experiment Station.

The outstanding features of the Rutgers tomato are the large size and solid structure of the fruit, deep globe shape, fine flavor and deep red color all over, together with a heavy set of fruit which makes for high yield. It is not an early variety—but ripens about the same time as Marglobe. In a normal season Rutgers will produce an abundance of ripe fruit before the vines are killed by frost. The vines are strong and sturdy with plenty of leaves to prevent the fruit being scalded by the sun. We offer **Certified Seed** of our own growing. See prices on next page.

Harris' Extra Early Earliana—The Smoothest Strain

We are sure that all our customers who have raised our special strain of Earliana tomato will agree with us that it is the *smoothest* and *best colored* stock of Earliana obtainable. There are other tomatoes offered under various names which are said to be earlier than Earliana, but we have found none to be any earlier and most of them are irregular in shape and not so well colored.

Certified Seed of our own growing. See prices on next page.

Marglobe Tomato—Blight Resistant

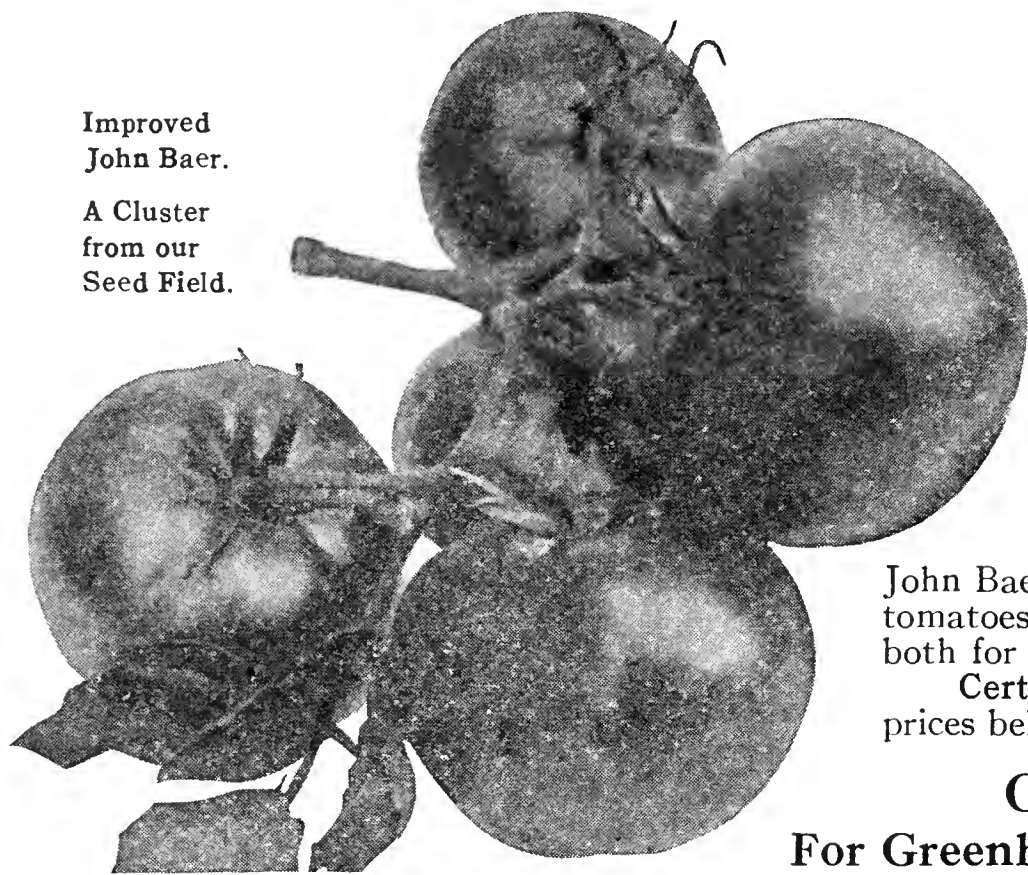

We have grown this variety on our own farm since it was first released by the U. S. Department of Agriculture and have made careful selections each year to improve the yield, uniformity of color, size and shape of fruit.

The fruit is large, globe shaped, perfectly smooth, deep red, very solid and firm. The vines are vigorous and healthy and do not blight. They remain green until frost, so the late fruit is as good as the first to ripen. **Certified Seed** of our own growing. See prices on next page.

TOMATOES continued on next page.

Improved
John Baer.

A Cluster
from our
Seed Field.

John Baer Improved Strain

This improved strain of the John Baer tomato will produce larger fruit and more tons of fine fruit to the acre than any stock we have ever seen.

The fruit is unusually large for this variety and is very smooth. It is deep red throughout and colors right up to the stem. The vines are vigorous and healthy and produce heavy crops.

We regard this Improved John Baer as one of the best medium early tomatoes, and can recommend it most highly both for market and canning.

Certified Seed of our own growing. See prices below.

Comet Tomato For Greenhouse and Trellis Growing

We are pleased to offer Certified Seed of this fine strain of Comet Tomato. The seed is saved only from the best fruit and has been found superior for both greenhouse use and growing outside on trellises. Some of the largest growers both in greenhouses and on trellises use Harris' Comet tomatoes with full satisfaction. Pkt. 20c; $\frac{1}{8}$ oz. 50c; $\frac{1}{2}$ oz. \$1.65; oz. \$3.00; $\frac{1}{4}$ lb. \$10.00.

	Oz.	$\frac{1}{4}$ lb.	lb.
BONNY BEST. Harris' Special Strain. (Certified Seed).....	5 lbs. \$20.00 \$.50	\$1.35	\$4.50
We know of no finer strain. Grown on our own farm from our own pedigree stock seed. Produces smooth round perfect fruit of finest color.			
BREAK O'DAY. (Certified Seed).....	.50	1.35	4.50
The fruit is very early, globe shaped, smooth and solid. This tomato is valuable where plants are staked and early fruit of high quality is required.			
CANADIAN. Extra Early. (Certified Seed).....	.50	1.50	5.00
A robust Earliana type tomato, practically as early as our Special Strain. Fruit deep red color and large. Seed of our own growing.			
COMET. Forcing Tomato. (Certified Seed). <i>See prices above</i>
Dwarf Champion50	1.30	4.25
Early, pink, medium size, dwarf stocky plant.			
Dwarf Stone50	1.35	4.50
Plants like Dwarf Champion with fruit like Stone.			
EARLIANA. Harris' Extra Early Strain. (Certified Seed). <i>See page 31</i>50	1.50	5.00
EARLY DETROIT. The Best Early Pink Tomato50	1.30	4.25
A very fine pink variety with smooth, evenly colored fruit of good size.			
GLOBE. Special Selected (Pink)	5 lbs. \$22.50 .50	1.50	5.00
Seed of our own growing and as fine a stock of this popular kind as we have ever seen.			
GOLDEN QUEEN50	1.45	4.75
Large, smooth yellow fruit.			
HARRIS' EARLY STONE. (Certified).....	5 lbs. \$18.50 .50	1.30	4.25
Produces large, solid deep red fruit, superb quality. Early selected strain, ripens nearly as early as Bonny Best and John Baer. Enormous cropper.			
HARRIS' SUCCESS	5 lbs. \$18.50 .50	1.30	4.25
Yields enormous crops of smooth solid fine flavor fruit. Nearly as early as John Baer.			
ITALIAN RED PEAR. Pomo d'oro a Pero. (Certified).....	Pkt. 10c .50	1.50	5.00
Three to four times as large as ordinary Red Pear. Clusters of 4-7 fruit with pleasant distinct flavor. Used largely for Tomato "paste" and canning "Italian Style."			
JOHN BAER. Improved Strain. (Certified Seed). <i>See above</i> ...	5 lbs. \$20.00 .50	1.35	4.50
MARGLOBE. Blight Resistant. (Certified Seed). <i>See page 31</i> ...	5 lbs. \$22.50 .50	1.50	5.00
NYSTATE (NEW). (Certified Seed) <i>See page 31</i>	5 lbs. \$22.50 .50	1.50	5.00
PONDEROSA. Largest Pink Kind55	1.60	5.50
Magnificent, heavy, solid fruit, often weighing 2 lbs. or more; light pink; medium late; does not color very well and is somewhat irregular.			
PRITCHARD'S SCARLET TOPPER. (Certified Seed).....	5 lbs. \$22.50 .50	1.50	5.00
Brilliant scarlet globe fruit, solid and of extremely fine quality. A heavy yielder, ripens right after Bonny Best. We think this is one of the best tomatoes grown. <i>Crop short.</i>			
RUTGERS (New). (Certified Seed). <i>See page 31</i>	5 lbs. \$27.50 .60	1.75	6.00

Small Fruited Tomatoes

These little tomatoes are popular to use in pickles, salads and preserves.

Varieties: Red Cherry, Red Pear, Red Plum, Red Currant, Yellow Cherry, Yellow Pear, Yellow Plum, Peach, and Ground Cherry (Husk).

Price: Pkt. 10c; $\frac{1}{2}$ oz. 30c; oz. 50c; $\frac{1}{4}$ lb. \$1.50. Any four Pkts. 25c. Any four $\frac{1}{2}$ oz. \$1.00.

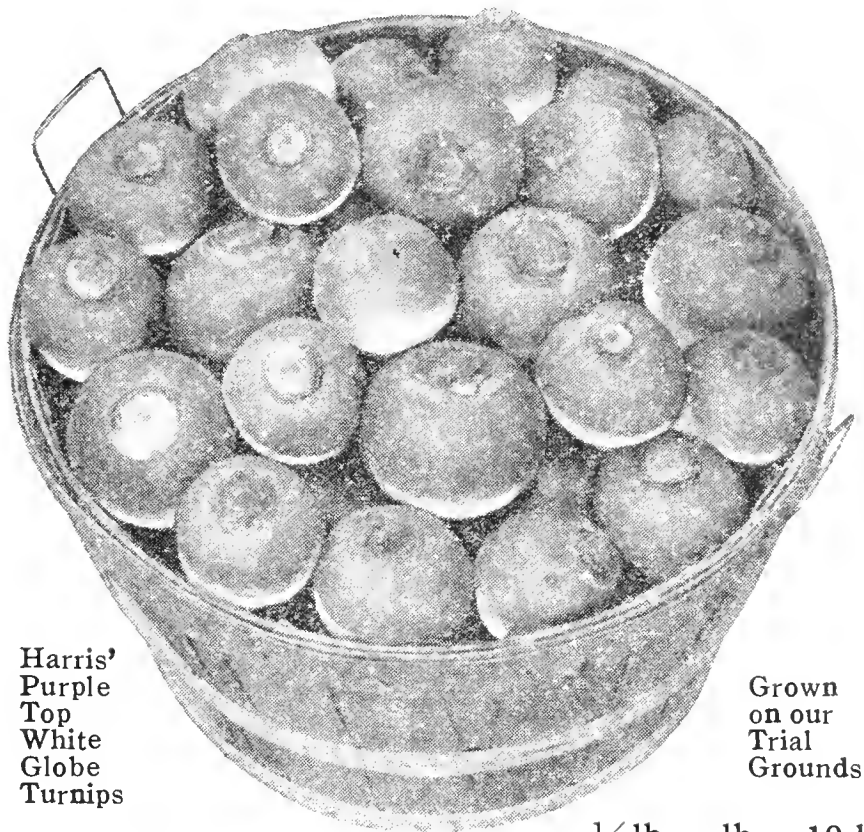

TURNIPS

Weisse Rube (Ger.) Navone (It.)

It requires 1 to 1½ lbs. of seed per acre in drills, or 2 to 2½ lbs. broadcast.

Purple Top White Globe Special Strain

This stock of Purple Top White Globe turnip continues to produce the smoothest, handsomest turnips we have ever seen. The color is a snowy white with bright purple tops. Such turnips make a much more attractive appearance and always sell at advanced prices over ordinary stocks. See price below.

Harris' Purple Top White Globe Turnips

Grown on our Trial Grounds

Be sure your name and address is on the order sheet

	¼ lb.	1 lb.	10 lb
EARLY PURPLE TOP MILAN.....	\$.30	\$.85	\$8.00
The earliest purple top turnip, very fine. Flat.			
EARLY WHITE MILAN. The Earliest Turnip.....	.30	.85	8.00
Very early, flat white turnip.			
GOLDEN BALL. The Smoothest Yellow Turnip.....	.25	.75	7.00
Round, smooth yellow. Much the best to grow where a yellow turnip is wanted.			
Purple Top Strap-leaf.....	.20	.60	5.50
White, purple top, flat, very rapid grower.			
PURPLE TOP WHITE GLOBE. Special Strain. See above.....	.25	.70	6.50
SHOGGIN. The Best Foliage Variety.....	.25	.80	7.50
The best turnip for greens, very much superior to Seven Top. The turnips are white, flat and of fine quality. The tops are light green of good quality and grow in clusters.			
Snowball.....	.25	.70	6.50
Pure white, round as a ball; early, with small tops.			

Kohlrübe (Ger.) RUTA BAGAS or Swede Turnips Cavolo navone (It.)

Improved Long Island Special Neckless Strain

We have compared this stock with the finest Canadian varieties and find it superior to any we have yet seen.

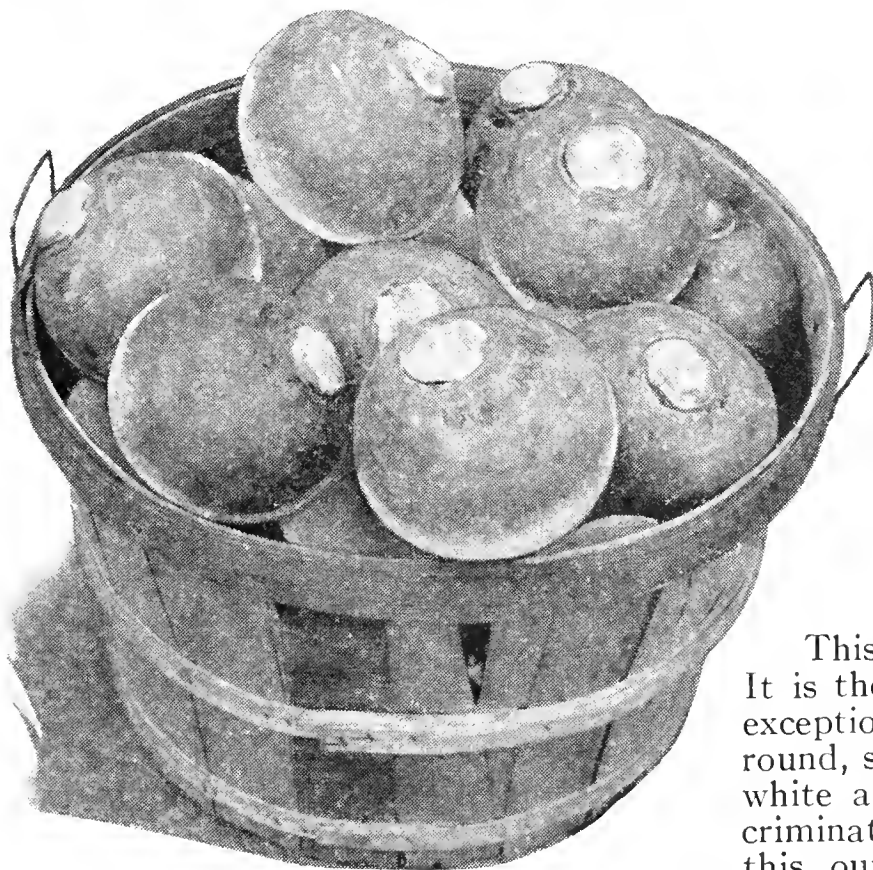

The roots are large and handsome producing enormous crops. They are globe shape and much smoother than the usual strains. There are practically no necks. Flesh is yellow and of fine quality. These ruta bagas command the best prices.

¼ lb. 30c; 1 lb. 85c; 10 lbs. \$8.00.

Macomber

Finest Quality. White Flesh

This ruta бага should be grown more extensively. It is the finest quality ruta бага we know being exceptionally mild and sweet. The roots are nearly round, smooth, white with green tops. The flesh is white and very fine grained. Growers to a discriminating trade quickly work up a fine trade with this outstanding variety. ¼ lb. 60c; 1 lb. \$2.00; 10 lbs. \$19.00.

Harris' Improved Long Island Ruta Bagas

Early Yellow Purple Top—Famous Bucks County Strain

A fine strain of Purple Top Yellow ruta bagas maturing about two weeks earlier than Long Island Improved. The roots are somewhat smaller than that variety and are very uniform for shape and color. The flesh is light yellow, fine grained and sweet. We can recommend this variety for early as well as late market. ¼ lb. 60c; 1 lb. \$2.00; 10 lbs. \$19.00.

Herbs for Flavoring, etc.

Worden. (Black).....		1.25	11.00
Earlier than Concord. Large black berries of fine quality.			

Certified Seed Potatoes

About Shipping. The potatoes are shipped in sacks holding 150 pounds (2½ bu.). We can usually ship safely by the 25th of March, but not before, except to the Southern States.

Prices Subject to Change. The prices of potatoes are subject to market changes and to our acceptance on receipt of order. We will be pleased to quote lowest prices by letter. Please state the kinds and amounts you are interested in.

		NOT PREPAID	
		Bu.	Sack
(Bu. 60 lbs., Sack 150 lbs.)			
CHIPPEWA (New). Certified Seed	\$	2.50	\$ 5.85
Very attractive appearance. White, well shaped with few and shallow eyes. Little later than Cobbler. Immune to mild mosaic. Will become a leading early variety. Produces large yield both on upland and muck.			
GOLDEN RURAL or RURAL RUSSET. Certified Seed		2.00	4.65
One of the very best potatoes, almost blight-proof, vines very strong and vigorous and produce immense yields of handsome round, white potatoes. We think larger crops can be raised with this variety than any other kind.			
GREEN MOUNTAIN. Certified Seed		2.25	5.25
HEAVY WEIGHT or Smooth Rural. Certified Seed		2.00	4.65
One of the heaviest yielding late potatoes we know of. Round, white, medium shallow eyes, vines very strong and free from disease.			
IRISH COBBLER. Early. Certified Seed		2.00	4.65
The most popular round white early potato.			
Irish Cobbler. Second Size. Certified		1.85	4.00
From same certified fields, but not large enough for first size.			
WARBA (New). Certified Seed		2.40	5.65
Attractive round tubers, white skin, light pink eyes. Extra early maturity makes this a superior variety. Does best on muck soil.			

HARRIS' FARM AND FIELD SEEDS

A partial view of our test rows of different strains of Orange King Calendula.

FLOWER SEEDS

Many of our customers make a practice of visiting our test gardens during the summer. We are always pleased to have them look over the different varieties with us, and give us the benefit of their experiences and opinion.

While inspecting the test plots with one particular customer this last summer we were especially interested in his comments. As it was his first visit he was very much impressed when he saw we had 102 test rows of Stocks, 84 of Petunias, 72 of Asters and over 50 each of Marigolds, Sweet Peas, Zinnias, etc.

"Now I know," he said, "why it is I have been able to depend on you for my seed. When you say some kind of flower is particularly good, I've learned you know what you're talking about."

"Your trouble," he continued, "is that you literally 'hide your light under a bushel.' If I went to all this expense and trouble to get the flowers I *knew* we growers should have, you can bet I'd shout it from the house-tops."

This is just why, on the opposite page, we are suggesting some of those kinds we know are particularly good. We want you to know that our own special Northern grown strain of Bonfire Salvia seed germinates almost 100% and that our growing of Paramount Ruffled Petunias are better than any other Giant Ruffled Petunias we have ever seen.

Limited space allows us to call attention to only a few, but if you can't visit us, write us. We will gladly answer your questions as fully as possible from our own experiences.

A Few of Harris' Flowers Especially Recommended for the Flower Grower

W2011—**AGERATUM LITTLE BLUE STAR.** The perfect blue edging plant. Uniform in growth and color. The variety that will give your plant customers satisfaction. Incidentally, this seed is thoroughly cleaned so that you do not pay for half chaff. Lg. Pkt. 25c; $\frac{1}{4}$ Oz. 90c; Oz. \$3.00.

W2201—**ORANGE KING CALENDULA.** For outdoor cutting this variety has no equal. Full, well-rounded flowers of solid texture that can stand handling. We suggest sowing Calendula outdoors from the middle to the end of June. This will give you blooms after the summer heat when you will find them at their best. $\frac{1}{4}$ Oz. 15c; Oz. 40c; $\frac{1}{4}$ lb. \$1.20.

A Few of Harris' Specialities (*Continued*)

W2992—GYPSOPHILA LONDON MARKET. The main characteristics of this variety are larger flowers and somewhat taller growing plants. We consider it superior to all other strains. Oz. 15c; $\frac{1}{4}$ Lb. 35c; Lb. \$1.15.

LARKSPUR is one of the mainstays of the grower, for both outdoor and greenhouse culture. You will find the superior germination and trueness of our tall double varieties an advantage that you cannot afford to miss.

W3243—Rosamond. Deep Rose. Lg. Pkt. 15c; $\frac{1}{4}$ Oz. 20c; Oz. 60c; $\frac{1}{4}$ lb. \$1.80.

W3248—Los Angeles. Rose. Lg. Pkt. 15c; $\frac{1}{4}$ Oz. 25c; Oz. 80c; $\frac{1}{4}$ lb. \$2.40.

W3255—Adorable. Lilac. Lg. Pkt. 15c; $\frac{1}{4}$ Oz. 30c; Oz. \$1.00; $\frac{1}{4}$ lb. \$3.00.

W3256—White Spire. Lg. Pkt. 15c; $\frac{1}{4}$ Oz. 30c; Oz. \$1.00; $\frac{1}{4}$ lb. \$3.00.

W3422—DOUBLE DWARF FRENCH HARMONY MARIGOLD. This variety is so satisfactory that you could insist on every one of your plant customers purchasing some plants, and not receive a single complaint. For a wealth of bloom or as a border plant, there is nothing more satisfactory in Marigolds. Lg. Pkt. 25c; $\frac{1}{4}$ Oz. 30c; Oz. \$1.00.

TALL MARIGOLDS—These two varieties are the earliest blooming of the African type. They bloom profusely under almost any condition which means success for your customer.

W3425—Marigold Guinea Gold. Lg. Pkt. 15c; $\frac{1}{4}$ Oz. 30c; Oz. \$1.00.

W3426—Marigold Yellow Supreme. Lg. Pkt. 25c; $\frac{1}{4}$ Oz. 45c; Oz. \$1.40.

W3802—PARAMOUNT RUFFLED GIANT PETUNIAS. We have grown and selected these for years in order to produce the largest possible percentage of huge ruffled flowers and dwarf plants. After comparing trials from numerous sources, we feel that this strain has no equal in the superbissima class. 200 seeds 30c; 500 seeds 60c; 1000 seeds \$1.00; $\frac{1}{64}$ Oz. \$2.00; $\frac{1}{32}$ Oz. \$3.50; $\frac{1}{8}$ Oz. \$12.00.

NEW KING PETUNIAS. The purest white and brightest rose Petunias being offered today are White King and Rose King. They reproduce practically 100% true from seed, and are sure to give complete satisfaction whether used for porch boxes, bedding or massed effects.

W3831—Petunia White King. Lg. Pkt. 25c; $\frac{1}{4}$ Oz. 45c; Oz. \$1.50.

W3832—Petunia Rose King Improved. Lg. Pkt. 25c; $\frac{1}{4}$ Oz. 45c; Oz. \$1.50.

W3823—ROSY MORN PETUNIA. Probably the most universally used flower. According to our trials of many different strains, ours has the advantage of coming practically 100% true to color and type. Lg. Pkt. 25c; $\frac{1}{8}$ Oz. 35c; $\frac{1}{4}$ Oz. 60c; Oz. \$2.00.

W5050—GIANT SNAPDRAGON, Rust-Resistant Variety Mixture. Breeding resistance to rust into Snapdragons has done as much in the last few years towards making these wonderful flowers satisfactory for every customer, as the wilt-resistance has done for Asters. This mixture we especially recommend is blended from named varieties and representative of all the most desirable colors. Lg. Pkt. 25c; $\frac{1}{8}$ Oz. 40c; $\frac{1}{4}$ Oz. 75c; Oz. \$2.50.

W6175—STATICE SINUATA, NAVY BLUE. A long stemmed large flowered variety of annual Statice for cutting which is the leader in this class. It can be dried without losing its color to any extent. $\frac{1}{4}$ Oz. 15c; Oz. 50c; $\frac{1}{4}$ Lb. \$1.50.

W4600—SALVIA BONFIRE, HARRIS' SPECIAL STRAIN. We can say without reservation that this is the finest strain of Bonfire Salvia on the market today. Larger and longer spikes, with the florets more thickly set on the stem. This gives the effect of a greater mass of bloom. The seed is full and well-ripened and has a germination of over 80% this year. We cannot recommend it too strongly. Lg. Pkt. 25c; $\frac{1}{4}$ Oz. 90c; Oz. \$3.00; $\frac{1}{4}$ Lb. \$9.00.

SOME EXTRA GOOD GIANT ZINNIAS—In Brightness you will find a sparkling pink color, brighter than any other color of Giant Zinnias. Canary Bird will give you the real pastel yellow, while Crimson Monarch is a rich deep red of excellent form and size. Because these three colors have proved to be the most popular in the garden and are practically 100% true large double flowers and true to color, we especially recommend them. (See page 46.)

W8120—GIANT ZINNIA, HARRIS' COLOR MIXTURE. As this special mixture is blended from the same fine colors as we offer separately, we feel that this mixture will give your plant customers more quality and satisfaction than they have been accustomed to expect. Lg. Pkt. 15c; $\frac{1}{4}$ Oz. 30c; Oz. \$1.00; $\frac{1}{4}$ Lb. \$3.00.

W8232—POMPON ZINNIA, SALMON ROSE GEM. The outstanding color in this group for cutting purposes. This is a strain that has been trued to the highest degree of perfection. Lg. Pkt. 15c; $\frac{1}{4}$ Oz. 25c; Oz. 90c.

Harris' New Wilt-Resistant Asters

Plant these New Wilt-Resistant Asters and be free of the "wilt" or "stem-rot," which is the most destructive Aster disease known. The varieties we offer have all been carefully selected for their value to the cut-flower grower, and the seed is all fresh new-crop seed of high germination.

Peerless Pink Aster

W1066—This is still the most profitable light pink Aster. Large double flowers on vigorous branching plants. Lg. Pkt. 25c; ¼ Oz. 60c; Oz. \$2.00.

Heart of France Aster

W1078—The most popular "red" Aster and still a favorite for the gardens. There is no other Aster to take its place. Lg. Pkt. 35c; ¼ Oz. 80c; Oz. \$3.00.

Royal Asters

Same form as American Branching but slightly earlier.

W1301—White	Lg.		
W1303—Rose	Pkt. ¼ Oz. Oz.		
W1304—Lavender	\$.25	\$.60	\$2.00
W1305—Purple			
W1300—Variety Mixture	.15	.45	1.50

Crego Asters

Ostrich Feather Asters. An unusual range of colors selected from the best of the fluffy or Crego type.

W1407—Crimson	Lg.		
W1402—Flesh Pink	Pkt. ¼ Oz. Oz.		
W1404—Light Blue	\$.25	\$.60	\$2.00
W1405—Purple			
W1403—Rose			
W1401—White			
W1406—Enchantress (New)	.35	1.25	4.00
W1400—Variety Mixture	.15	.45	1.50

American Branching Asters

The leading mid-season variety for all purposes.

W1604—Azure Blue	Lg.		
W1606—Crimson	Pkt. ¼ Oz. Oz.		
W1608—Dark Violet	\$.25	\$.60	\$2.00
W1602—Flesh Pink			
W1607—Peach Blossom			
W1605—Purple			
W1603—Rose			
W1601—White			
W1600—Variety Mixture	.15	.45	1.50

Early Beauty Asters

A very late blooming class that is splendid for extra late cutting, after most other Asters are gone and prices are higher.

W1904—Azure Fairy	Lg.		
W1903—Carmine Rose	Pkt. ¼ Oz. Oz.		
W1902—Flesh Pink	\$.25	\$.70	\$2.50
W1905—Purple			
W1901—White			
W1900—Variety Mixture	.25	.60	2.25

Early Dawn Asters

A new class extremely early, blooming before the insects start working on Asters. Good stems can be obtained by heavy feeding. Not wilt-resistant.

W1254—Lavender	Lg. Pkt. ¼ Oz. Oz.		
W1253—Rose	\$.25	\$.90	\$3.00
W1251—White			
W1250—Variety Mixture	.15	.70	2.50

Aster Mixtures

For Plant Trade

Harris' Best Mixture

W1500—Harris' Best Mixture. A mixture of the eight Wilt-Resistant Asters we especially recommend in our general catalog. Particularly good for plant trade or garden. Lg. Pkt. 15c; ¼ Oz. 50c; Oz. \$1.75.

All Kinds Mixed

W1000—Choice Mixture of Tall Varieties. This is an especially made mixture of taller growing kinds including Royal, American Branching, Crego, and Early American Beauty. Lg. Pkt. 15c; ¼ Oz. 30c; Oz. \$1.00.

American Branching Aster, Peerless Pink

SELECTED ASTERS for CUT-FLOWERS

(Not Wilt-Resistant)

California Giant Asters

A new strain of remarkable Asters on immense robust plants. The flowers have long twisted petals and are colossal in size.

W1815—Dark Purple	Lg.

Primula Obconica

Aalsmeer's Glory Strain. There are no finer Primula for the discriminating florist. Four separate colors. Price: any color, Pkt. \$1.00; 1/4 Oz. \$2.50; 1/2 Oz. \$4.50.

Rose	Red	White	Lilac
Mixture of the four colors: Pkt. \$1.00; 1/4 Oz. \$2.00; 1/2 Oz. \$3.50.			

Pansies

New Swiss Giants

W3705—Magnificent Mixture. No description can do justice to this new strain of Pansies. The enormous blooms measure three inches or more in diameter and the colors are unusual. Lg. Pkt. 40c; 1/8 Oz. \$1.00; 1/4 Oz. \$1.75; Oz. \$6.00.

W3704—Dwarf Swiss, Choice Mixture (New). More dwarf compact plants with the same immense flowers as the Magnificent Mixture. Lg. Pkt. 60c; 1/8 Oz. \$1.75; 1/4 Oz. \$3.00; Oz. \$10.00.

W3738—New Blue Swiss. A solid blue with darker blue blotch. Lg. Pkt. 50c; 1/8 Oz. \$1.25; 1/4 Oz. \$2.25; Oz. \$8.00.

W3739—New Red Swiss. Same type as the blue but a mahogany red color. Lg. Pkt. 50c; 1/8 Oz. \$1.25; 1/4 Oz. \$2.25; Oz. \$8.00.

W3736—New Yellow Swiss. Another of the type but a yellow color with black blotches. Lg. Pkt. 50c; 1/8 Oz. \$1.25; 1/4 Oz. \$2.25; Oz. \$8.00.

W3737—Coronation Gold. A new clear yellow Swiss Pansy. Retail packet 25c.

Maple Leaf Giants

W3703—Mixed Colors. A new variety with the largest flowers of them all. Lg. Pkt. 60c; 1/8 Oz. \$1.50; 1/4 Oz. \$2.50; Oz. \$9.00.

Harris' Special Mixture

W3700—We make a special point of this medium priced early flowering mixture. The flowers are large, with bright colors predominating. Lg. Pkt. 35c; 1/8 Oz. 50c; 1/4 Oz. 85c; Oz. \$3.00.

Giant Trimardeau Pansies

W3701—Mixed Colors. A high grade mixture of choicest colors of large-flowering Pansies. Lg. Pkt. 15c; 1/4 Oz. 30c; Oz. \$1.00; 1/4 Lb. \$3.50.

Giant Ruffled Pansies

W3702—The flowers of this mixture have fluted or ruffled petals which add much to the beauty of the wonderfully rich colors. Lg. Pkt. 35c; 1/8 Oz. 85c; 1/4 Oz. \$1.50; Oz. \$5.00.

INSECTICIDES, ETC.

Insecticides listed below are sent at purchasers expense except where noted. *Prices subject to change.* Write for special prices in large quantities.

ARSENATE OF LEAD. Standard poison to use against worms and insects that eat leaves of plants, fruits, etc.

Powder: $\frac{1}{2}$ lb. 25c; 1 lb. package 45c; transportation paid. Not paid: 4 lb. bag \$1.00; 6 bags (24 lbs.) or more at 18c per lb.

"BLACK LEAF 40." Standard nicotine sulphate insecticide. Effective against aphids, etc. Use also to delouse poultry by simply painting the roosts. Highly concentrated. Economical.

1 oz. 35c; 5 oz. \$1.00; 1 lb. (bottle) \$2.25; 2 lb. (tin) \$3.25 transportation paid. Not paid: 5 lbs. \$5.85; 10 lbs. \$10.60 each. Prices subject to change. Write for prices on larger sizes.

BORDEAUX MIXTURE. Standard fungicide for spraying plants and trees.

$\frac{1}{2}$ lb. 25c; 1 lb. 40c; transportation paid. Not paid: 4 lb. bag 95c; 6 bags (24 lbs.) at 16c per lb. Write for prices on larger quantities.

CALOMEL. (Fine Powder). Used successfully to combat cabbage maggots. See your County Agent.

1 lb. \$2.10; 5 lbs. or more at \$1.95 per lb. transportation paid. Prices subject to change.

CORROSIVE SUBLIMATE. (Bichloride of Mercury.) This powerful disinfectant is used to treat potatoes and in the control of cabbage maggots.

$\frac{1}{4}$ lb. 55c; 1 lb. \$1.85; 5 lbs. or more at \$1.75 per lb. transportation paid.

NEW EVERGREEN. One of the most effective non-poisonous insecticides. Contains soap spreader. Simply mix with water.

1 oz. 35c; 6 oz. \$1.00; 16 oz. \$2.00 transportation paid. Not paid: 1 gal. \$11.00.

FORMALDEHYDE, (40 per cent). A valuable disinfectant for destroying germs that cause diseases in plants. Directions on can.

1 lb. cans 40c; 6 cans \$2.15 postpaid; also 100 lb. Carboys (about 12 gal.) Write for Special Price.

SEMESAN. We have found this material most reliable to prevent damping off of seedlings. Used either as liquid for treating soil or dust disinfectant for seeds.

2 oz. 35c; 1 lb. \$2.25 transportation paid. Not paid: 5 lbs. \$9.90; 25 lbs. \$45.50.

SEMESAN Bel. For seed potatoes. One pound New Improved Semesan Bel will treat 50 to 60 bu. of cut potatoes. For control of Rhizoctonia and seed-born Scab.

4 oz. 45c; 1 lb. \$1.50 transportation paid. Not paid: 5 lbs. \$6.75; 25 lbs. \$31.00.

SEMESAN Jr. A cheap and effective dry dust disinfectant for both field or sweet corn. Prevents corn from rotting in the ground.

4 oz. 30c; 1 lb. 75c transportation paid. Not paid: 5 lbs. \$3.25.

CERESAN. New Improved. Effective dust for control of covered smut on wheat, oats and barley. $\frac{1}{2}$ oz. treats 1 bu. of seed.

1 lb. 70c transportation paid. Not paid: 5 lbs. \$3.00.

DUBAY No. 738. Has proved effective in controlling bottom rot of lettuce. Use 25 lbs. per acre.

5 lbs. \$3.00; 25 lbs. \$12.50. Purchaser pays transportation.

Protect Your Seed Corn From Crows

If you are troubled with crows and other birds pulling up your seed corn, treat it with **STANLEY'S CROW REPELLENT**. We use it on our own farm for corn, melons and cucumbers. Will not harm the seed or clog the planter.

Half pt. can (enough for 1 bu.)... \$.60

Pint can (enough for 2 bu.)... 1.00

Quart can (enough for 4 bu.)... 1.75

Transportation paid.

"NICO-FUME." Powder Pressure-Fumigator (New).

This most effective and economical fumigating material for greenhouses is now burned under pressure in special cans in which it is packed. Easy to use and gives more effective control of greenhouse insects at no increase in price. Complete directions on label.

$\frac{1}{2}$ lb. cans 45c each; 6 for \$2.40; 12 for \$4.20; 1 lb. cans 75c each; 6 for \$3.75; 12 for \$7.00 transportation paid.

PYROTE. Unexcelled non-poison Pyrethrum-Rotene spray. No spreader needed. Effective against both sucking and chewing insects.

1 oz. 35c; 6 oz. \$1.00; pint \$2.00; quart \$3.50; transportation paid. Not paid: 1 gallon \$12.00; 5 gal. \$50.00.

RED COPPER OXIDE. A very effective and cheap disinfectant for seed. Especially effective for spinach and beets. Experiment stations have found it will actually increase stands even where seed of high germination is used.

4 oz. 35c; 1 lb. can 90c transportation paid. Not paid: 5 lbs. \$4.00. Write for prices on larger quantities.

RED ARROW. A highly concentrated Pyrethrum spray. Non-poisonous to human and animals.

1 oz. 35c; 4 oz. \$1.00; pt. \$2.70; qt. \$3.20 transportation paid. Not paid: 1 gal. \$9.70 each; case of 6 1-gal. \$52.50.

SNAROL. Sure death to Cut worms, Sow bugs, Slugs, Snails, etc. Simply broadcast on ground. Will not deteriorate from rain or sprinkling.

$\frac{1}{2}$ lb. 35c transportation paid. Not paid: 4 lbs. 85c; 15 lbs. \$3.00; 50 lbs. \$8.00. Write for prices on larger quantities.

SULROTE. This new dust combines Sulphur and Rotenone in a most effective non-poisonous dust, for control of lice and worms on cauliflower, cabbage, etc., Mexican beetles, cucumber beetles and other pests.

1 lb. can 40c each transportation paid. 5 lb. bags \$1.25; 25 lbs. at 18c per lb.; purchaser pays transportation. Write for prices on larger quantities.

TOBACCO DUST. Fine Powder. Used extensively for dusting plants. For fumigating greenhouses the tobacco dust we sell is most excellent. Five pounds will fumigate a house 20 x 100 feet.

2 lbs. 35c transportation paid. Not paid: 10 lbs. 50c; 100 lbs. \$4.00.

FERTILIZERS

CHAR-GRO—Sensational new granular fertilizer. Has charcoal base to prevent leaching—no waste of plant food. 4-16-4.

Growers Price—100 lb. bag \$2.75. Purchaser pays transportation.

VIGORO

Popular with greenhouse men, rose growers, etc. Contains many essential minor elements.

Growers Price—100 lbs. \$2.75.

Purchaser pays transportation.

PULVERIZED SHEEP MANURE. This is high grade material. There is no straw or other rubbish in it. 100 lb. bag \$2.75; 10 bags (1000 lbs.) \$18.00; 1 ton \$34.00.

Purchaser pays transportation. *Prices subject to change.* Write for price on larger quantities.

Garden Line

Good strong hemp garden line. 50 feet 60c; 100 feet 90c; 200 feet \$1.40. Transportation paid.

PEAT MOSS

We consider Peat Moss to be one of the most valuable materials for conditioning and improving soil which we have yet found.

It has remarkable ability to absorb and retain moisture.

Soil mixed with Peat Moss makes ideal material for seedlings and potted plants. It has good drainage and will not crust or bake after watering.

HARRIS' PEAT MOSS is a very superior brand finely granulated, and free from any foreign matter. It is put up in bales about 12 cu. ft. of highly compressed peat moss or enough to cover more than 250 square feet 1 inch deep.

Price—Single bale \$3.40; 3 bales or more at \$3.35 per bale. Purchaser pays transportation. Write for prices on larger quantities.

Lang's Hand Weeder

This is one of the most useful tools for hand weeding made. A boy with one of these weeders can do twice as much work in a day as he could without it.

Price 25c each; 3 for 65c; 6 for \$1.00 postpaid.

Use "Fertile Pots" for better, earlier crops!

Seedlings set in these pots can be grown and then set in the field pot and all without checking the plant, even in very dry weather. These pots are made with just the right amount of fertilizer for the best plant growth.

Large growers find these pots not only save time and labor but actually produce earlier fruit and better yields.

Especially valuable for Early Cabbage, Egg Plant, Peppers, Tomatoes, Melons, Squash, etc.

PRICE: Fertile Pots are packed in cartons as follows:

No. 1	(about 1½" dia.)	per carton of 2000.....	\$14.00
No. 2	(about 2" dia.)	per carton of 500.....	4.50
No. 3	(about 3" dia.)	per carton of 335.....	4.00

We cannot sell less than single cartons of each size. All f. o. b. Coldwater, N. Y. Weight per carton about 40 lbs.

New "Open Hed" Sprayer

This new Brown Sprayer represents the first real improvement that has been made in hand sprayers in many years.

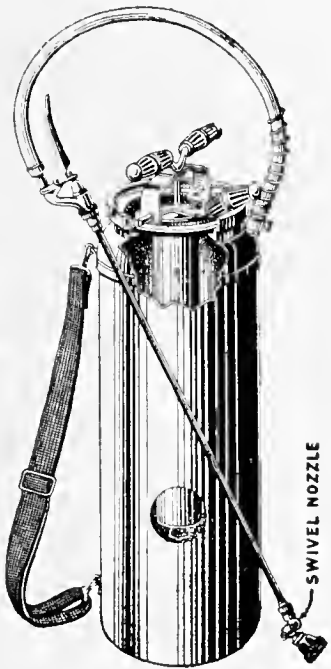

It combines the following new features with the well known superiority of the Brown sprayers.

1. Electrically welded seams
 2. Galvanized after fabrication
 3. Double Acting pump lock
 4. Tank opening is 5 in. in diameter
 5. Tank guaranteed for 100 lbs. pressure
 6. Rubber Double grip pump handle
 7. Pump unit completely assembled
 8. Adjustable small nozzle
- Write for descriptive literature.

No. 3¾ B. Open Hed 3¾ gal. Brass Tank..... \$9.25

No. 3¾ D. Open Hed 3¾ gal. Galvanized Tank..... \$5.95

Transportation paid in U. S. east of the Mississippi River and north of Tenn. At the above prices these are an outstanding value!

Raffia—Better than String

Used for heavy bundles of plants, for tying plants to stakes, for budding and grafting and many other purposes. Very economical and costs less than string.

Lb. 40c; 5 lbs. \$1.60 transportation paid. Write for prices on large quantities.

1 lb. 75c transportation paid. Not paid: 10 lbs. or more at 65c per lb. Lowest prices quoted on large lots.

Early Crops Get Highest Prices

Plant Early with Safety!

In order to grow profitable vine crops, the grower must do everything possible to insure the greatest yield of early fruit at a minimum cost. The use of *Hotkaps* has proved a decided advantage in growing these crops.

We have tried a number of other plant protectors side by side with *Hotkaps* in our melon fields but have found none which have equal ability to stand high winds and beating rains.

Hotkaps are simply scientifically constructed wax paper cones, which are placed over the plant or hill of seeds in the field. They act as miniature **hot houses**, enabling the grower to set out his plants or plant his seed as soon as the ground is warm, as they afford perfect protection from frost, wind and beating rains. *Hotkaps* also protect the young plants from insects, such as the striped beetle which does so much damage to young plants. It also prevents the ground from baking around the plant. **This makes for earlier and better fruit.**

PRICES—250 with special setter and tamper \$3.65 (weight 9 lbs.) 250 without setter and tamper \$3.25; 500 with setter and tamper \$5.50 (weight 17 lbs.) 500 without setter and tamper \$5.10; 1000 *Hotkaps* without setter and tamper \$10.15 (weight 26 lbs.) 5000—\$10.05 per 1000; 10,000 or more at \$9.95 per 1000. Purchaser pays transportation.

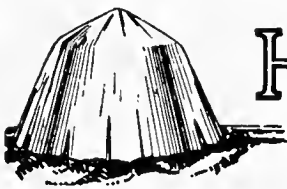

For full details and prices of *Hotkaps* in smaller quantities see our General Retail Catalogue.

Steel *Hotkap* Setter and Tamper—\$1.50 (weight 3 lbs.). Not prepaid.

Folder giving full description and direction for using *Hotkaps* will be sent to anyone interested on request. Please write.

Try Hotents! Made by the same people. Larger area and taller. 11 x 14 and 8" tall. Will stand up under adverse conditions. Some of our customers have found *Hotents* especially valuable for growing melons and use many thousands each year.

PRICE: Carton, 500 (Wt. 34 lbs.)—\$7.00; 1000—\$13.45; 5000 at \$12.95 per thousand. Setter \$1.95 each. (Wt. 4 lbs.) Purchaser pays transportation. We cannot sell less than 500. Send for descriptive circular.
